Are you ever concerned that the daily maintenance activities of your staff and crew might alter the outcome of a friendly match, or perhaps even effect the outcome of a tournament? What happens if one of your crew rakes a bunker that has a ball lying in it. What's the ruling if your fairway mower runs over and embeds a ball in play, or cuts up a ball in play. How do you respond to the golfer, and how do the golfers decide the outcome of a hole or the match, if one of your crew has inadvertently interfered? Armed with the correct information on the Rules of Golf, and how they are applied to everyday situations involving your maintenance crews and their equipment is something you need to know.

I've been a Golf Course Superintendent for over ten years, and a student of the Rules of Golf since 1992 when I began studying the rules in preparation for the GCSAA certification exam. Since that time, I've had the opportunity to attend several PGA/USGA four-day Rules Workshops, and was successful in passing the PGA/USGA rules exam this past spring, at the Bethesda Workshop. Although I'm not on par with rules authorities such as Clyde Luther or Tom Meeks of the USGA, I have gathered some pertinent information on the rules of golf and how they effect us as Golf Course Superintendents, our staffs, and our daily maintenance operations.

The best piece of information I've ever come across is in the Decisions on the Rules of Golf book. It is Decision 1-4/1 which basically states that "Distractions are a common occurrence which players must accept." This is great, it's sort of a carte blanche for our maintenance operations. What it means is that the noise from a maintenance vehicle passing by a group of golfers, the engine noise from a mower, even the noises associated with construction such as chain saws are no excuse for a bad shot. Of course Decision 1-4/1 doesn't give us the right to throw the courtesy normally shown to golfers out the window, but it does say that the noise we make while working on the golf course cannot be used as an excuse for poor play, missed shots, or lost matches. For, the most part, our maintenance crews and equipment are considered to be "Outside Agencies." An outside agency is anything that is not part of the match, or in stroke play, not part of the competitor's side. Whenever our crew members or equipment interfere with play of the ball, rules 18-1 (Ball at Rest Moved by Outside Agency), and 19-1 (Ball in Motion Deflected or Stopped by Outside Agency) will come into play.

Rule 18-1 simply says if a ball that is in play and at rest is moved by a mower, a utility vehicle, or even a crew member (any outside agency), the ball is to be replaced before the player plays another stroke, and there is no penalty to the player. Rule 19-1 gets a little trickier for the golfer and actually introduces an element of luck into the game. Rule 19-1 says basically that if a ball in motion after a stroke other than on the putting green comes to rest in or on a piece of maintenance equipment, the ball shall be dropped through the green (or placed on the putting green) as near as possible to the spot where the ball landed on the piece of equipment. Rule 19-1 (b) says that if a ball in

continued on page 8
motion after a stroke on a putting green is deflected or stopped by, or comes to rest in or on a piece of maintenance equipment, the stroke shall be cancelled, the ball replaced ball lands in or on a piece of maintenance equipment and the equipment drives away with the ball, another ball may be substituted, with no penalty.

In all instances, if the ball in play is embedded by piece of maintenance equipment, the golfer is permitted to lift, clean and place the ball without penalty

(Rule 20-3b: Lie of Ball Altered). And if the ball is deemed to be damaged by a mower or any other piece of maintenance equipment, another ball may be substituted (Rule 5-3: Ball Unfit for Play).

Rule 25 is the rule dealing with Abnormal Ground Conditions (casual water, ground under repair, certain damage to course), and there are a number of interesting decisions based on Rule 25 relating to golf course maintenance. Decision 25/14 defines a “hole made by a greenskeeper” as ground temporarily dug up in connection with course maintenance, such as a hole made in removing turf or a tree stump, laying pipelines, etc.

Decision 25/15 states that an aeration hole is not a hole made by a greenskeeper, therefore relief is not granted. However, a local rule (33-8/32) is suggested which may be adopted by your club that does allow a player to take relief from aeration plugs can be found in Decision 23/12. It states that although loose soil is not a loose impediment through the green, aeration plugs are considered to be “compacted soil,” so they are considered to be loose impediments, which may be moved away from the ball before making a shot. Just don’t move the ball when you move the plugs, or you’ll be accessed a one stroke penalty under Rule 182c (Ball Moved After Touching - Loose Impediment).

How should ruts made by tractors be treated under the rules? Decision 25/16 explains that a rut made by a tractor is not a hole made by a greenskeeper. Deep ruts should be declared as ground under repair by the committee, however shallow indentations made by greenkeeping equipment is not ground under repair. A ball in a shallow indentation would have to be played as it lies.

Is there relief from a tree stump under the rules? Decision 25/8 says that unless the stump is marked as ground under repair, or is in the process of being removed there is no relief. A tree stump is nothing more than a short tree, according to the USGA. Decision 25/11 explains the many ramifications of grass clippings. Grass clippings are only ground under repair if they have piled for removal. A player is entitled to relief if clippings piled for removal interfere with his stance or swing. Grass clippings are by definition, loose impediments, whether or not they are piled for removal, and may be removed by the player. But again, don’t move that ball when removing loose grass clippings, or you’ll pick up a penalty stroke under Rule 18-2c.

Have your members ever had to invoke the “leaf rule” in the fall? Actually there is no such thing, however the Decisions Book does allow the committee to adopt a local rule to deal with the seasonal problems of leaves. Decision 33-8/31 suggests adoption of a local rule declaring the accumulation of leaves through the green to be Ground Under Repair, allowing Rule 25-1 (Abnormal Ground Conditions) to apply.

And finally, what is the ruling if a member of your staff rakes a bunker when the player’s ball lies in it, and the raking improves the lie of the ball or line of play? Decision 13-2/4 states that if the staff member raked the bunker on the instructions, or with the sanction of the player, the player would incur a two stroke or loss or hole penalty otherwise, there would be no penalty. If however in raking the bunker your staff member acci-
