

I IF YOU WANT
A BEAUTIFUL
LAWN

• • HERE IS YOUR *Opportunity*

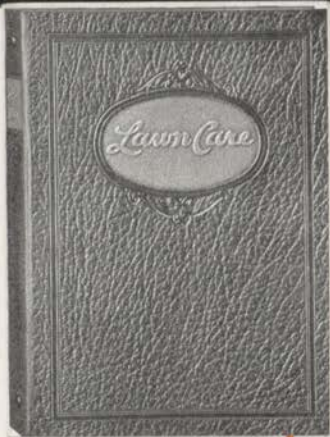

A lovely lawn is not obtained by accident. It is produced by means of good seed and fertilizer combined with favorable soil and weather conditions. Be certain, then, that the seed and fertilizer you use is good.

Thousands of the finest lawns in the country owe their lasting beauty to Scott's carefully blended seed. It produces deep-rooting perennial plants. To eliminate the danger of introducing weeds in your lawn, it is cleaned and re-cleaned until it becomes 99.91% weedfree. The waste matter is also removed so that pure seed remains. That is why we feature Scott's Lawn Seed.

The complete Scott line is available in our garden department. The most widely used item is Scott's Lawn Seed, composed of imported and domestic grasses suitable for open, sunny lawns. Scott's Shade Mixture is prepared for use where sunlight is limited. For those who want lawns like putting greens, we recommend Scott's Creeping Bent.

Scott's Turf Builder is a complete food, especially prepared to feed grass correctly for many months. It gives nourishment that brings rich color and healthy vigor to lawns. Use it with Scott's Seed to produce perfect turf.

Lawn Care

HELPS SOLVE THESE PROBLEMS

How to control weeds . . . grow grass in shade . . . get turf on terraces . . . water lawns . . . use fertilizer or lime.

These and many more are discussed in *Lawn Care*, the little bulletin published five times each year to help you build a better lawn. If you want to receive future issues, we will be glad to order a free subscription for you.

Other Scott
Lawn Publications

BENT LAWNS

A practical discussion of the most beautiful of all lawn grasses. Describes planting with either seed or stolons and maintenance methods. Many natural color illustrations.

LAWNS

The amateur gardener's guide to better lawns. Contains condensed but very complete information on soils, fertilizing, seeding, lawn pests and how to control them.
