3 lbs. ....	1.75	25 lbs. ....	12.50
5 lbs. ....	2.75	50 lbs. ....	22.50

Larger Amounts, 45c per lb.

### Shade Mixture

A carefully prepared combination of shade tolerant grasses including three imported varieties as well as Creeping Bent. Has produced many fine lawns in shaded locations where all other mixtures have failed.

#### Parcel Post or Express Paid

1 lb. ....	\$ .75	10 lbs. ....	\$ 6.75
3 lbs. ....	2.15	25 lbs. ....	16.25
5 lbs. ....	3.50	50 lbs. ....	30.00

Larger Amounts, 60c per lb.

*Sow Regular or Shade Mixture at the rate of 4 lbs. per 1000 sq. ft. for new lawns, half as much for improving established lawns.*

### White Dutch Clover

Offered as a separate variety for those who prefer seeding it separately. White Clover usually stays green during drouth. Helps to thicken turf although some object to it in lawns because it is not a grass. Seed very lightly.

Price 70c per lb. postpaid.

### Creeping Bent Seed

We are now able to furnish genuine Creeping Bent seed, unmixed with other kinds of Bent or other varieties. Particularly recommended for re-seeding established lawns to produce turf of finer texture.

#### Parcel Post or Express Paid

1 lb. ....	\$1.65	10 lbs. ....	\$15.00
3 lbs. ....	4.70	25 lbs. ....	36.25
5 lbs. ....	7.75	50 lbs. ....	70.00

Larger Amounts, \$1.40 per lb.

### Creeping Bent Stolons

Chopped roots and runners which are planted instead of seed for new lawns. Produce turf in six to eight weeks. Not sold by weight but on basis of planting area. As stolons are perishable we ship only by prepaid express.

## Scott's Turf Builder

(Lawn Fertilizer)

A special grass fertilizer of our own preparation. Because of high concentration goes twice as far as most plant foods. Use only 10 lbs. per thousand square feet for established lawns, 20 pounds when preparing the ground for new seeding. On open lawns apply in spring and fall with a third application in June for shaded lawns. Experiments have proven Turf Builder to be the most effective and long-lasting grass food on the market.
