

Westchester's New Courses

WHILE the old courses are going through the mill in Westchester with Brown Patch and sundry other consequences of the present season's abnormal weather, several new lay-outs are fast making their appearance.

At Armonk, N. Y., there is the new North Castle Country Club, a creation of Mr. Gil Tiffany, where nine of the holes are already being played over.

At Chappaqua, N. Y., the Whippoorwill Country Club course is now looking pretty. This, the old McCabe estate, is beautifully situated, and out of decidedly rough terrain Mr. Donald Ross has cleverly fashioned a pic-

are assured of a very successful venture when Tamarack opens next Fourth of July. Mr. J. Stewart will transfer from the old Port Chester Country Club as greenkeeper.

King-ridge Country Club, Port Chester, N. Y. Mr. Tom Winton of Tuckahoe is the architect of the new semi-public course now being built on Anderson Road. Mr. Winton is very skilfully and successfully utilizing the natural physical features of Kingsridge with a view to minimizing expenditure on both construction and maintenance. The existing residence will serve as the club house, and its ancient lofty windmill will make Kingsridge quite a local landmark.

Sunset Hill Golf Club, Ossining, N. Y. A beautifully designed club house is now under construction here, and the membership list fast being filled. For sheer beauty of setting, Sunset Hill is very hard to equal, and with the course brought along to final stages of preparedness, this club will offer golf under the most charming of conditions.

John Petenero is greenkeeper at Quaker Ridge Country Club, New York, which is the home club of Johnnie Farrell, the present National Open Champion. This naturally brings Quaker Ridge course into prominence, and no doubt John will have many of the country's most distinguished golfers play over his course this year and next.

turesque course. Construction virtually terminated last year, so that the turf is pretty well into playing shape now.

Tamarack Country Club, near Armonk, N. Y., is the new development of the Port Chester Country Club. Mr. C. Banks is the architect, and at present he has four steam shovels working out his transformation of the landscape. There are 180 acres at Tamarack, secluded from highways, yet only fifteen minutes by car from Port Chester. With Judge Connolly and Mr. Geo. Mertz actively guiding the club's destinies, Port Chester golfers

Your Grass Seed

Much of the Grass Seed that is sold today is supplied to the final, retail trade by large wholesalers. There are comparatively few houses that make their own importations, and of these few firms, Peter Henderson & Co. are an outstanding example.

We have always believed that there is a demand for the highest grade of Grass Seed—Grass Seed that could be depended upon, and the results have fully justified this belief.

Use Henderson Seeds for at least a portion of your course this year. Let us quote you on your requirements, and you will be surprised to find that the prices for seeds of Henderson quality are about the same as you have been paying, but with a vast difference as to results. An inquiry does not obligate you in any way.
