Market Place and Buyers' Guide

Where reputable manufacturers and dealers list and describe their products. Greenkeepers are requested to write the Market Place for any special information they desire about supplies or equipment.
In regard to the new Toro Seven-Unit pull type mowing outfit, I am glad to give the readers of THE NATIONAL GREENKEEPER some particular information about it.

What we have accomplished here is in reality a light weight, yet highly powerful mowing outfit that will handle fairway mowing in approximately half the time required by the old types. The tractor is our regular Toro Master Seven, weighing but 1650 pounds, yet with a heavy bevel gear enclosed rear axle with a sufficient power to handle seven mowers in high gear over 20% grades. In second it will handle grades from 25 to 30%,” and in low it will go just about over anything.

The main advantage of this new arrangement is that the mowers can be disconnected from the tractor in ten minutes’ time, and the tractor can be used for general utility purposes. This is important because with this new outfit it is only necessary to use it every other day for mowing purposes. In other words, it is not necessary to tie up one tractor to handle the mowing job.

Being of short wheel base (only 103 inches maximum from the front wheels of the tractor to the rear mower), a high degree of flexibility is obtained and as
