

Cleveland News

By WALTER E. KNOWLES, Secretary

At one of our recent meetings George Penglase, a member of our local association gave those present a very interesting description of his experiences in Japan.

Mr. Penglase had just returned to America after having spent a year on the construction of a golf course for the Tokio Golf Club, of which the Emperor was a member.

George's presence in Japan was apparently appreciated, for the Japanese, as a way of celebration, produced an earthquake on his first night in their country.

* * *

At our enthusiastic meeting on February 8, the recent National Convention and Conference meetings were discussed by the Cleveland District boys who were present. Many helpful thoughts were brought to light on the same, as well as on some of the troubles experienced during the past season.

Moving pictures of effects of certain fertilizers and a prominent speaker are in store for the boys at the March meeting.

This century-long test insures finer turf

The fact that Dreer's "Golf Links" and "Putting Green" grass seed mixtures are tested for purity and germination is important only because the Dreer organization itself has passed a century-long test for integrity and dependability.

"Golf Links" mixture was specifically developed to produce a turf that will withstand the hardest fairway usage. "Putting Green" mixture includes only fine-bladed, low-growing, hardy varieties which maintain their rich, green color throughout the season. Other mixtures for athletic grounds, parks and private lawns. Write Dept. T-4 for descriptive literature and prices.

HENRY A. DREER, 1306 Spring Garden Street, Philadelphia, Pa.

DREER'S

CUT GRASS AND EXPENSES, TOO

Budd 4-edged blades for mowers are doing it for others. These easy-to-change blades with multiple cutting edges are the new, modern way to quicker, better cutting. And at much lower expense. Why don't you investigate? Just ask for Price List "N" with the new low prices and full details. A postal will do.
