COLORADO SPRINGS -- WHAT'S IN IT FOR YOU?!

by Dave Rulli, President
Colorado Chapter: STMA

A
 hh, Colorado -- a place where winter temperatures can range from 10 to 60 degrees, depending on the day. A place of beauty -- snow capped mountains peeking at you from behind the buildings. AND -- from January 15-19, 1997 -- a place to learn all you can from your peers at the 8th Annual STMA Conference & Exhibition in Colorado Springs!

Make your plans NOW to come out and see the show -- and BOY DO WE HAVE A SHOW FOR YOU!

On Wednesday, we have a tour set up of both indoor and outdoor facilities, including: the Olympic Training Center; Sky Sox Stadium, home of the AAA Colorado Rockies; and the Air Force Academy -- including a tour and demonstration of their newly renovated field. Wednesday night is also our “welcome” night, and we have lots of fun and festivities planned for all.

Thursday is the opening of the Trade Show, set up this year to provide a better opportunity for attendees to “mix and mingle” with the vendors.

We have PLENTY of educational sessions planned this year -- NOBODY will go home without learning SOMETHING -- I can guarantee that.

On Friday, after the sessions, head out to Cripple Creek for a night of slots, blackjack, or your choice of several video machines. Bus transportation is provided by Bronco Billys Casino & Restaurant. Departure times from the Red Lion will vary for your convenience. Reservations must be made by December 1st.

Saturday educational sessions are capped off by our Annual Awards Banquet, all at the Red Lion Hotel.

An optional tour of the Denver facilities will be offered on Sunday. I urge you to take advantage of this golden opportunity to see such sights as Coors Field, Mile High Stadium and the Denver Broncos training facility.

For spouses and friends, there are daytime tours of nearby attractions, Garden of the Gods, Cave of the Winds, and Seven Falls. A Shopping Day trip to the Castle Rock Factory Outlet Mall is also planned. Reservations deadline is December 1st.

Colorado Springs is easily accessible from Denver (60 miles north) as well as having its own brand new airport.

For those of you who like to ski -- call Colorado Ski Country USA at (303) 837-0793 for your Colorado Ski Guide which includes everything you need to know about Colorado ski areas.

For a free visitors guide for the Colorado Springs/Pikes Peak region call 1-800/DO-VISIT. AND I HOPE YOU DO VISIT!!!

“Promoting Better & Safer Sports Turf Areas”
President’s Message

by Mike Schiller
President

Greetings! The summer of ‘96 has definitely been a challenge, as was this past spring. What better way to test some of the theories and implement those great ideas you picked up at the Annual Conference & Exhibition in Anaheim.

If you didn’t get the chance to attend -- take a good look at this issue of the newsletter and see what we’ve got planned for you THIS time.

The education committee has put in a lot of long hours planning the program for our 1997 Conference & Exhibition, January 15-19 in Colorado Springs. The Colorado Chapter has lots of great tours and things set for us in the Rockies.

All that’s missing is YOU! Make your plans NOW to be a part of a great learning experience and enjoy the beauty of Colorado with other sports turf managers from all over the country. Don’t Miss Out! I hope to see you there!

STM

STMA MEMBERS ON THE MOVE

L. Murray Cook - STMA Board Member, formerly with the Braves/Expos Joint Venture - now holds the position of Baseball Stadium Manager at the Disney Sports Complex, Walt Disney World, P.O. Box 10,000, Lake Buena Vista, FL (407) 363-6610.

Stephen H. Guise - STMA President-elect, has taken the position of Sports Turf Manager for Valley Crest Landscape, Inc., 24121 Ventura Blvd., Calabasas, CA 91302 (818) 223-8546.

CONGRATULATIONS GUYS!!

If you -- or someone you know -- has changed facilities or received a promotion, give us a call and let us know -- we’ll be happy to publish it in the newsletter!

DONATIONS FOR AUCTION SOUGHT

STMA will hold its annual raffle and silent auction to raise funds for education and scholarship programs. To donate items for the silent auction and raffle, please notify Silent Auction Co-Chairs, Mike Trigg (847) 360-4725, or Troy Smith (303) 649-9000.

WE HAVE A WEB SITE!!

The New STMA Home Page is now on the World Wide Web. Your Home Page address is: http://www.aip.com/STMA
Because We Care

We just found out that Harry Cline, former Editor of Western Turf and Landscape Press, lost his wife, Connie, to cancer on April 3rd. Connie was also active in the turf industry. Among other things, California people knew her as the Executive Secretary of the Central California Turf Council. She had also begun some of the preliminary work on starting a Central or Northern California STMA Chapter. I talked to Harry in Mid-July and he is doing fine, under the circumstances. Since the purchase of the parent company of T&LP Harry has gone back to reporting the agricultural scene on the west coast. He sends his greetings to all his friends in STMA.

Terry Stenson, the young gentleman that conducted that great tour of Disneyland in January for our Seminar on Wheels, was injured in a swimming accident Memorial Day weekend. He broke and/or crushed several vertebrae. While still paralyzed from the waist down, he did get out of intensive care in mid-July and is hoping to start rehab very soon. At that report, he was on the 6th floor of Long Beach Memorial Hospital. Cards and letters can be sent to him there.

Jim Kelsey, President of Partac Peat/Beam Clay was injured in a backhoe accident at his home. While he suffered severe skull fractures around his eye, he is now back to work and expects a full recovery. Our thoughts are with them all.

STM
A Taste of What’s in Store

Mary Owen, Conference Education Chairman

It’s that time of year again. Time to start planning your attendance at our 8th Annual Conference & Exhibition, January 15-19, 1997, in Colorado Springs.

Your conference education committee has reviewed past post-conference surveys and has integrated your requests into some GREAT educational sessions.

For example -- Helen Stone, Adams Publishing, will give a guided interactive tour on “surfing” the World Wide Web and Internet; we’ll dig into Balancing Safety and Agronomy; share workshops on the Agronomic Fundamentals for Cool and Warm Season grasses; focus on “Save Every Drop” water management with Dr. Tony Koski and delve into “What's Wrong with my Field,” with Dr. Gil Landry.

The Trade Show also will be held at the Red Lion Hotel. The Thursday, January 16th, Trade Show opening from 4:30-8:00 P.M. will include a reception. On Friday, January 17th, Trade Show hours are 10:30 A.M. - 3:00 P.M, with lunch served Friday in the

The Jacobsen Greens King™ V Triplex Greens Mower has the cut you expect. And more.

1. The exclusive FlashAttach™ System makes changing reels, rollers, spikers and verticutters as simple as pulling a pin.
2. Walk-through operator's station allows easy entrance and exit from either side.
3. Standard tilt wheel and power steering. Rear wheel turns inside the front wheel's radius.
4. Fully enclosed engine compartment for quieter operation.
5. Operator friendly controls for easier access and greater visibility – clear sight lines all around.
8. Open design and handy dome light make accessing the center reel easier.
9. Easy access to battery, radiator, coolant bottle, air filter, hydraulic fill and fuel fill.
10. Standard halogen headlight for dusk and dawn.

Ask your Jacobsen distributor for a Greens King V demonstration today.

THE PROFESSIONAL’S CHOICE ON TURF.
Chapter Events

Colorado Chapter: STMA
The Colorado Chapter will meet on August 15th at Colorado State University's Hughes Stadium in Fort Collins, CO. The meeting will concentrate on football and soccer field management. Sonny Lubick, CSTMA member and Head Coach of CSU Football will be the keynote speaker.

For information on the Colorado Chapter or upcoming events, call the 24-Hour CSTMA Chapter Hotline/FAX: (303) 438-9645 and leave a message, or contact: Troy Smith, Denver Broncos, at (303) 649-9000.

Florida Chapter #1: STMA
The Florida Chapter will assist with the STMA booth at the Florida Turfgrass Association show, August 24th and 25th at the Tampa (FL) Convention Center.

The Florida Chapter also will participate in the “Turf Rodeo” on August 29th held in conjunction with the Florida Parks and Recreation Association (FPRA) activities at the Rolling Hills Country Club in Ft. Lauderdale. Crews will showcase their skills.

For more information on these events, the Florida Chapter, and other pending events, contact: John Mascaro (305) 938-7477.

Southern California Chapter: STMA
The Southern California Chapter will meet August 31st at the Epicenter Stadium in Rancho Cucamonga. Activities include a stadium tour, a dinner and camaraderie break, and the opportunity to attend the game between the Rancho Cucamonga Quakes ball team and a worthy opponent.

The Southern California Chapter will “do it again,” adopting for their 1996 field renovation project the combination field hockey - soccer - football field of Rancho Buena Vista High School in Vista, CA. The Chapter will meet at the school on October 25th to outline the renovation plan, then move outdoors for hands-on demonstrations of the tasks at hand. On October 26th, the volunteers will converge on the field for the renovation work day.

For information on these events, the Southern California Chapter and other upcoming activities, contact: Chris Bunnell at (619) 432-2421.

Minnesota Chapter: STMA
The Minnesota Chapter is planning a Fall Workshop for mid-September. More details will be announced soon.

Midwest Chapter: STMA
The Midwest Chapter’s next meeting will be September 11th at the Inwood Recreation Center of the Joliet Park District in Joliet, IL. The meeting will focus on Integrated Pest Management, checking out the latest techniques and products available to keep insect and disease problems under control. Attendees also will tour the Inwood Center complex.

For more information on the Midwest Chapter or upcoming events, call: The Chapter Hotline (847) 439-4727.

The Iowa Sports Turf Managers Association
For information on the Iowa Chapter or upcoming activities, contact: Lori Westrum at The Turf Office at (515) 232-8222 (phone) or (515) 232-8228 (fax).

STMA Chapters on the Grow:
Kansas: The newly forming Kansas Chapter has adopted a name: The Great Plains Chapter. They meet on the last Wednesday of each month. The August 28th meeting at Lawrence-Dumont Stadium begins at 4:00 P.M. and will last approximately two hours.

A mid-September Seminar is being planned. The same Seminar format will be repeated during the designated week at different sites across the state - starting in East Kansas and then moving on to Central and West Kansas locations.

For more information on these events, or the Chapter, contact: Mark Schimming of Wichita Baseball, Inc. at (316) 292-2907, Extension 205.

Arizona: For information on the newly forming Sports Turf Managers Association of Arizona, and upcoming events, contact: Bill Murphy, City of Scottsdale Parks and Recreation Department, at (602) 994-7954.

OFFICIAL STMA CHAPTER SPONSORS

Nothing Runs Like a Deere®
Scotts®
Headquarters Update

by Steve Trusty, Executive Director

Membership Update

STMA has added 104 new members since January 1. Welcome aboard! As of June 30th, our membership stands at 646. While this is a very small portion of the number of potential members, it is substantial growth over a year ago. I’m also pleased to report that our retention rate is at least 84%. I’m told that this is a better retention rate than previous years and for an organization such as ours it is an excellent rate. Naturally, we’d like 99.9%, and would love to welcome all former members back into the fold. STMA is on the move and growing. Besides the benefits of membership that attracted the new members and prompted the renewing members, your Board of Directors and committees are hard at work to provide even more services. They want your input and they want STMA to even more closely meet the needs of those responsible for maintaining safer sports turf areas. Contact your board members or this office any time you have ideas. Talk to your peers. Let them know about STMA and why you belong. Pass along a membership application. Just think what could happen if each one of you sponsored one new member. How about two?

Watch for your September issue of sportsTURF for details on a new membership campaign.

New feature in your Newsletter

Several members have suggested that we provide some type of Q & A column. When I met with the Great Plains Chapter in June, member Tim Estesen came forward with a way to handle the column and offered to provide the lead-off question and the Wichita answer. As he stressed, this is not the only way to do something — either in this column setup or in whatever field situation is being addressed. For now, the idea of the column is to throw out a question and print the response of several members. The response is just their way of doing it. Because sports turf management is an art, as well as a science, the idea is not to establish this is right and that wrong, but rather to establish that — with the field conditions I face and with the resources of materials, dollars and labor my facility has available — this is how we get the job done. How Do You Do...? will provide several ways of answering one question. We want to cover a variety of topics and different types of fields over the course of a year.

This is your newsletter — designed to fill your needs. Give us a call at 800/323-3875 and let us know what you think about this feature. And — if you like it — give us your How Do You Do....? questions or tell us “How you do....”

Keep it green!

**How Do You Do ....?**

The Question — How Do You Repair Your Batter’s Boxes?

**Answered by Tim Estesen and Mark Schimming of the Wichita Wranglers**

We repair our batter’s boxes after any event in which they have been dug out. We first sweep out the holes so that there is not even any dust left because we feel dust from old clay hurts the packing and consistency of the clay we use to rebuild the holes. We use new clay every time we rebuild because we feel this provides us with the best results and we can afford to do it.

After the holes have been swept, we sprinkle them with water from a watering can, applying just enough to moisten everything. If there are puddles, we’ve put on too much water. We then put a layer of new clay in the hole and tamp it down quite well. The layer of clay we use is usually about one inch thick, but the thickness would vary depending on the type of clay and how much you want to pack in. We then remoisten the clay and put another layer of new clay on and tamp it in. We will repeat this process until the holes have been filled and leveled.

We will check for “levelness” with the flat side of a rake, just pushing the rake over the area and looking for any depressions or high spots.

Tim likes to put a rag or towel over the new clay as he packs it to keep the clay from doing that annoying sticking to the tamp. The rest of the crew just chooses to use the burlap or nylon covered tamps to prevent that problem.

We do these repairs every night after the game and broom it over or rake it over and the holes are pretty well taken care of.

Periodically, we will remove the excess clay to compensate for all the new clay that we have added.

**Answered by Charles Forsman, Lakeside School, Seattle, Washington**

Our school has one softball field, used for girls’ fast pitch softball. Damage in the batter’s box is minimal. We keep some of the infield dirt mix on hand for repairs. We rake out any holes, then fill them in with the appropriate amount of infield dirt and tamp it in. Retained soil

How Do You Do....?
continued from page 8

moisture generally is adequate during our playing season, so wetting the material isn’t necessary. Because holes are small and occur infrequently, “eyeballing” for leveling is all we need to do. Final leveling of the repaired areas is handled during the usual pre-game preparations of scarifying and dragging.

Answered by Tom Curran, City of Pampano Beach (Florida), Parks and Recreation

We have multiple baseball fields in our system, with multiple levels of play. We use Beam Clay in the batter’s boxes, even at the recreational level, using the pitcher’s mound mix, because it’s a bit less expensive. We start the season by digging out the batter’s box area, removing some of the typical clay and adding a layer of several inches of the pitcher’s mound mix. We wet and pack following instructions on the bag, then put a little bit of the field clay over the top as a dusting, so we have a solid base for firm footing with a light, looser topping. We repair the entire batter’s box area every day, rather than spot repairing holes. If the budget is tight, we’ll repair only the right hander’s batter’s box every day, tackling the left hander’s batter’s box as needed. Every few months, we’ll remove the old clay and replace it with new pitcher’s mound mix.
