to get the staff, t-bars and snow fence set up and angled like a runway or funnel that leads the geese into the back of a livestock transport truck. Once this is accomplished the staff walks the ground and herds any groups on land towards the runway. A human wedge is formed to push the geese in the right direction.

While this is being done the boats are herding the geese from the lake inland. This takes time as the birds are not to be stressed or overworked. Once on shore the same process of slowly walking behind them and clapping hands seems to work best in keeping them together and on the right path. Once the park is done it is off to the next location, minus the few that suddenly remembered they could fly. Obviously the moulting process has not started for them.

It should also be noted that the young are not taken, with sufficient mature geese left behind to tend to them as another endearing characteristic is any adult goose in the clan will tend to young goslings.

At the end of the two days close to 2,000 birds have been transported to a sanctuary in Aylmer. Representatives from both municipalities make the trip to ensure the release at that end goes as smoothly as the capture.

It is a lot of work. The outcome is well worth it. Think about it, 2000 geese times 2 lbs of droppings shipped away for a least six to eight weeks. Drastically reduces the complaint calls pertaining to this issue.

---

**We have some pretty happy customers of our Natural Knit CPR creeping perennial ryegrass (and by the way, no unhappy ones either) The NTEP Trials on Summer Density and Wear Tolerance simply confirmed what we saw for ourselves, and heard.**

**Water Star**

*Science told us that our Water Star varieties would more than hold their own in our ever-growing harsh Ontario summers… and boy, did they ever.*

**FinalSan**

*And for users of non selective herbicides such as horticultural vinegars and fatty acids, our FinalSan is gaining popularity with each and every customer who uses it.*

At Lawn Life, we don't profess to have the biggest selection with the flashiest brochures. What we do have is simply some of the best turf products money can buy at very competitive prices backed up by industry veterans who know their way around sports fields and parks.

**Contact us for more information and pricing, today.**

Outsmart Mother Nature... Year Round!

EVERGREEN™ TURF COVERS

With 30 years of field proven experience and the longest warranties, EVERGREEN™ from COVERMASTER is the smart choice.

SMART EDGE TECHNOLOGY™
- Hems and grommets are not required
- Unlike Polypro fabrics, EVERGREEN™ will not unravel
- Can be cut to custom sizes and shapes on site
- Anchor pins can be placed anywhere on the cover

UNIQUE DESIGN CREATES A TRULY 4-SEASON TURF COVER
- Winter blanket • Early spring green-up • Summer overseeding & repair • Frost protection • Extend your growing season

BE SURE TO ASK FOR EVERGREEN™, THE ONE WITH COLOR
- Provides additional light spectrum benefits for the turf
- Choose color based on your climate

Can be cut or shaped without fraying thanks to Smart Edge Technology™
The with and without look of natural turf using the EVERGREEN™ cover
