

YOUR HOST SUPERINTENDENT

Leonard Walsh has been with Boulder Creek Golf Course for 17 years. June 10th. It was only a nine hole course and he constructed the second nine in 1965. Leonard started his golf course career on the construction of the Riverside Golf Course at Coyote in 1957.

Leonard has been a board member of GCSA of Northern California off and on since 1968. He is a member of GCSA of America. Leonard, his wife Virginia and 4 children live on the golf course at Boulder Creek.

Leonard invites all to come to the meeting and enjoy the course.

PRESIDENT'S MESSAGE - by Bob Livesey, CGCS Plaza Golf Course, Visalia

The first meeting of our new year has gone by. From the comments made after the program, everyone enjoyed it and much good information was obtained by those in attendance. Before the meeting broke for golf, the membership was asked for their ideas for programs. Let's get them in to Grady Simril or Joe Andrade.

A word on membership. Your Board of Directors are bothered about the number of Class B and D members who could go the next higher class and have not done so. Jim Ross, Membership Chariman will be getting a committee together to go through all of the membership records. Each individual who is eligible for reclassification will be contacted. Some of you feel that you would not be able to pass the test. This is no mark against you. Many take the test 2, 3, and even 4 times before passing. These examinations were designed, not to criticize, but to help you. This is the reason we try to sit down after the exam and go over it with you. There may be some who don't know that they have to apply for reclassification, ask.

We have three REGIONAL TARP MEETINGS left

June 10 - Santa Rosa CC, Santa Rosa

June 17 - Sequoyah, Oakland

June 19 - Del Paso CC, Sacramento.

We hope that you have attended the one in your area, if not possibly you can make one of these. A lot of information is obtained at one of these meetings
