A STATE OF MIND

by Robert E. Livesey, CGCS, Visalia

Since the beginning of time another year has slipped away. You sit back and look at what you have accomplished and wish there were more hours or days to have done more. You have your budgets ready to present to the board, wondering if you are going to get everything you asked for, Then take a look at the state of the economy and wonder if you may have gone a little overboard.

You look forward to this new year of 1982. The plans are laid, what wasn't accomplished last year will be taken care of this year and much more. You have made your morning rounds, the crew is busy and every thing looks good. Back in the office you start working on your monthly calendar, Association meeting dates, national conference, Turf Grass conference, and oh yes, golf with Joe or Sam, golf tournaments, vacation maybe I can work in a full week at a time this year. Gosh! Can't forget Asilomar, rebuild #1 tee, new traps here, fill this one over there - and - The phone rings. Green Chairman wants you to meet with him. Suddenly, its back to the real world!
