ARE YOU TIRED???

We have run across some absolutely irrefutable statistics that show exactly why you are tired. And brother, it's no wonder you're tired either! There aren't as many people actually working as you may have thought, at least not according to this survey recently completed.

The population of this country is 200 million, 84 million over 60 years of age, which leaves 116 million to do the work. People under 20 years of age total 75 million, which leaves 41 million to do the work.

Then there are 22 million who are employed by the Government, and that leaves 19 million to do the work. Four million are in the Armed Forces, which leaves 15 million to do the work. Deduct 14,800,000, or the number in the state and city offices and that leaves 200,000 to do the work. There are 188,000 in hospitals insane asylums etc., so that leaves 12,000 to do the work.

Now it may interest you to know that there are 11,998 people in jail, so that leaves just two people to carry the load. That's you and me - and brother, I'm getting tired of doing everything by myself!
