

# PRESIDENT'S MESSAGE

BOB FORD

IT IS NOW TIME FOR THE GCSAA CONFERENCE IN LAS VEGAS  
January 28 - February 4, 1984

These conferences just seem to get better and better each year. Jim Prusa is doing a great job with the educational sessions which offer something for every one. With such a diversified range of learning material being offered and the close proximity of the conference to our area, I would urge everyone to attend. These conferences not only give you a chance to absorb new knowledge, meet people and exchange ideas, but to voice your opinion for the betterment of our association.

It has become very evident as of late, that we have several national members that are not members of any local superintendents chapter. Are we loosing their voting strength? By the same token, we have many local chapter members that are not national members. What is the problem? California has the potential of being the most influential state in the association and must rate as the golf capital of the world. Why not support your associations that are your bread and butter!
