

MICHAEL R. CLARK, CGCS

Due to the fact our newsletter has contained the term "union busting" in articles about one method of dealing with unions, some of our members felt the Association was being presented as anti-union. I would like to assure our membership that the Board does not want to put the association in either the pro or anti-union category. We wanted to present information that could help you deal with a union situation that was not working.

On the other hand if someone would like to propose a program or write an article on the positive aspect of a union crew they should do it. I personally would like that information to draw on as well as Mr. Larrabee's.
