

PRESIDENT'S MESSAGE

KENNETH A. SAKAI, CGCS

Congratulations on the Board's action to establish a standing committee for long range planning. This committee's goals are to establish the groundwork to expedite items of importance for our general membership. These will include by-law revisions, update on a Northern Calif. Superintendent Survey, and educational projects. We are all involved in a fast-changing technological industry and we shouldn't put limits on our growth due to outmoded ideas and thinking.

A short reminder to sign up early for our annual Supt/Pro Tournament as there seems to be quite a lot of interest already.

Oh, contrary to a floating rumor, there is not a "For Sale" sign in front of my house! Enough said.

One omission from our current committee assignments was that of Mike Ginelli as education chairman.

We shall see everyone at Silverado on July 17.

Ken
