

# PRESIDENT'S MESSAGE

First of all, I would like to congratulate Mike Clark on his fine year as President. Our association established a very positive image under his leadership. My congratulations also go to the newly elected board members. I will look forward to working with all of you this coming year.

1985 will present us with a very exciting and challenging year. The hosting, along with our California counterparts, of the GCSAA Annual Conference and Show, and also the planning of yet another Northern California educational program. All this while maintaining our positive growth among association members.

With these projects in mind, I am going to propose that we create a long-standing committee that will supplement the boards energies and actions into our most creative undertakings.

For lack of a proper title it would be called our standards committee. Long term projects, such as by-law revisions and educational projects could be formalized here and then presented to the board. This committee would remain in effect for a period of no less than 3 years and give our association the continuity and stability of solving and creating our long range goals.

The current board and committee assignments are as follows:

VICE-PRESIDENT - Stan Burgess, CGCS

SEC./TREASURER - Sam Singh, CGCS

BOARD of DIRECTORS - Paul Dias

John Grant

Jim Ross

Al Schlothauer

PAST PRESIDENT - Mike Clark

CLASS F AFFILIATE - Mike Ginelli
