CONTINUING EDUCATION

As a GCSAA member, you're in a growth industry if ever there was one.

And to keep on top of it, we offer dozens of seminars throughout the year on a wide variety of subjects: the latest in scientific methods from univer-

sity researchers to the latest in employee motivation from professional management consultants.

Take advantage of the GCSAA seminars. Because once you take on the responsibility of keeping golf green, you can never stop learning.

WE KEEP GOLF GREEN.
