Dr. Harivandi also has a number of turf related tests underway at the Santa Clara Field Station. Testing currently being performed includes:
- Characteristics and herbicide tolerance of hard fescue varieties
- Nitrogen and Iron effects on tall fescue
- Zoysiagrass cultivar comparison
- Buffalograss cultivar comparison which includes tolerances to post emergent pesticides
- Crabgrass management study

National research can also be accessed through a number of sources. GCSAA has information available through both the Research Department and Information Services. There is work being done currently to update the GCSAA database and information should be available in the upcoming months on the GCSAA Home Page. Check out their Home Page at http://www.GCSAA.ORG. The USGA has a listing of completed research topics published in the 1995 Turfgrass & Environmental Research Summary. Call Golf House at (908) 234-2300 for information on receiving a copy. Michigan State University has an informational network that can be utilized for a fee. Information on that service can be found at (517) 353-7209. They also have information available on their Home Page, http://www.LIB.MSU.EDU/TGIF.

The USGA also has site visits available by staff Agronomists. This service is provided for a fee and can be very valuable when trying to document problems for presentations to your membership or Board of Directors. The Western Region Office for USGA can be reached at (714) 457-9464. Last and certainly not least, we all have a professional network that allows us to pick up the phone, call another superintendent and ask for their help, confirm a recommendation or just look for some moral support.

**Web Sites:**
- GCSAA Home Page - http://www.GCSAA.ORG
- Michigan State University - http://www.LIB.MSU.EDU/TGIF

**Supporter Listing**

**SCOTTS PROTURF**
Fertilizers - Poly S and new Triaform technologies Herbicides, Fungicides, Seed, Soil, tissue, water and turf disease testing.
Chuck Dal Pozzo, Sr. Tech. Rep. 510-791-8985

**CALCIUM**
Pacific Pearl Oyster Shell — the most efficient calcium for the turfcare professional. Available from your fertilizer dealer. For Technical assistance call John Mazura.
Jericho Products, Inc. 707-762-7251
