more than one person. It is short notice I know, but
we do have members in the area! I would only ask
to receive a brief synopsis for the newsletter.

Renewals are coming in “hot and heavy”. Mem-
bership cards are here and will be circulating as I
update databases with new information and mail it
out to all of you. I know this must sound like a
broken record, but please make sure you send in
your membership questionnaire. Each year after we
publish the directory I get a call from a member
wanting to know what his address, telephone
number or company name isn’t correct. Well folks I
can only publish what I have. Your accounting
departments sometime fail to forward the ques-
tionnaire. When I receive a renewal check without the
questionnaire, I fax a second questionnaire to you.
If I don’t receive this back I can only assume you
want your information to remain the same.

This brings me to another point. Some members
are requesting a “lower case” email or upper and
lower case on email accounts. The email addresses
are not case sensitive. Dashes, spaces, etc. are
important for email address but not letter case.
Trying to convert these after they are entered into a
database is time consuming!

course uses recycled water that is blended on site with potable water.
Future plans include expansion of the parking lot, renovation of six
more greens, a new practice green complex, and a tree planting
program.

Dave’s been at Palo Alto nearly seven years now. Previously he was
Superintendent at Dry Creek Ranch GC in Galt where he was very
active in the Sierra Nevada chapter. He served as an assistant at
Sunol, Crystal Springs, and Saratoga CC. Raised in Cupertino, Dave
credits all the superintendents he has served under including Paul
Dias, Bill Huff, Pete Galea, and Bill Andrade. Dave has his AA in
Business Administration and just renewed his GCSAA certification
status.

Dave was married in June to his lovely wife Beth. Both Dave and
Beth each have two children from previous marriages. Dave enjoys
music, snow skiing and of course “The Motorcycle.” Dave logs
between 5 – 10,000 miles per year on the bike. He’s hoping to make
Sturgis and the Memorial Day run to Washington DC sometime in the
next few years. He’s looking forward to a summer vacation now that
his major course remodeling is done. He and Beth are talking about
going to Canada or Europe in the next couple years.

Dave’s shown an unwavering commitment to our Association over
the years. He’s stepped to the plate and took on way more than anyone
expected. He has stood strong through thick and thin and has taken the
criticism as well as the compliments. I hope all of you will let Dave
know how much he is appreciated, even if it is with just a slug in the
shoulder.
