

YEAR-ROUND FERTILITY PROGRAM

At the Starting Gate

Start your turf off right, and you'll reap the benefits all season long. Growth Products' 15-2-15 with 50% Slow Release Nitrogen and micronutrients will improve your turf's tolerance to stress, and help develop good stand, root mass, and depth. Other popular analyses in our liquid fertilizer line include 18-3-6 with 50% SRN plus Micros and 22-0-16 with 82% SRN.

Home Stretch

Essential contains all important humic acid and L-amino acids that improve color, quality, and stress resistance. Companion microbial inoculant contains beneficial *Bacillus subtilis* GB03 microbes, which colonize the soil/root zone. Healthier soil and plants mean greater stress and disease resistance!

Winner's Circle

With 10 chelated micronutrient products to select from, you can write your own prescription! Our line includes X-Xtra Iron 9%, Micrel Total, Calcium 8%, Manganese 5%, Magnesium 3%, and Cal Mag Max.

We've been in business for nearly two decades, so we have the experience and know-how to satisfy even the most discriminating superintendents.
