

The Golf Course Superintendents Association of Northern California

2002

Join Winchester Country Club And Sierra Nevada On Oct. 22nd

One of NorCal's Highest Rated Golf Courses

When legendary golf course architects come together, the result is a masterful playing experience that's already ascended to the elite list of golf destinations.

As one of only seven courses co-designed by Robert Trent Jones Sr. and Jr., Winchester Country Club is a rare combination of father and son, sport and surroundings, challenge and beauty.

"Gigantic rock outcroppings border the playing corridors. Panoramas sweep across the Sierra foothills down to the Sacramento Valley that are surprising at every turn."

With fairways that reward creativity, classic greens that test execution and five sets of tees on each hole to accommodate all skill levels, it plays like a golf purist's delight.
