

ESTABLISHMENT OF THE JASON OLIVER MEMORIAL SCHOLARSHIP

With the recent passing of Jason Oliver and the profound effect he had on his peers and the golf industry, please join us as we honor and remember him in a special way.

Jason was a person who had an unquenchable thirst for knowledge and education. He met every learning opportunity with excitement and passion. Jason wanted to be the very best in everything he pursued. His ability to rise to the challenge and excel in the classroom and the golf course (be it playing golf or working on the course) was extraordinary for a person of his age. With hard work, a positive attitude and his persistent nature, Jason put himself through college on scholarships alone. His efforts paid off as he graduated Magna Cum Laude with a 3.83 GPA.

While in school, Jason completed multiple internships at a number of high-profile golf courses. These opportunities allowed Jason to receive extensive professional training from some of the most respected golf course superintendents in the country.

During his employment at Stanford, Jason continued his dedication to the golf industry by serving on the Golf Course Superintendent's Association of America Assistant Superintendent Committee, as well as serving as the Assistant Superintendent Director for the Northern California Chapter of the GCSAA Board of Directors.

Jason was well on his way to reaching his dream of becoming a Certified Golf Course Superintendent. He also wanted to become the youngest President in the history of the Golf Course Superintendent's Association of America. Unfortunately, both of these goals were tragically unfilled.
