

YOUR HOST SUPERINTENDENT - Frank Barberio, Mira Vista G &CC, El Cerrito

Frank has worked on the golf course at Mira Vista twenty-two years, the past four as Superintendent. Since becoming Superintendent Frank is responsible for removing over 300 eucalyptus trees from the golf course, greatly improving the turf. The golf course is in super condition as a result of Frank's diligence.

Mira Vista Golf & CC is a private club whose golf course is 62 years old. Four members owned all of the property which the club bought outright in 1980. Approximately 40,000 rounds per year tour the Mira Vista Links.

Mira Vista has a unique water system, "HOSES" Only 8 greens have quick couplers, with no automatics

+++++

THANKS TO STAN BURGESS and all the people at Richmond Golf & Country Club for a wonderful day on the coulf course and around the pool.

+++++

KEN'S NOTES by Ken Sakai, President of GCSA of Northern California

One hates to beat a dead horse but there are some problems that we have been having at a few of our monthly meetings. The first deals with people forgetting to notify the host superintendent that they will be attending the meeting. It is usually these people that compound the problem by inviting guests (see Murphys Law). This in turn, creates additional problems, such as, seating arrangements, lunches, and starting times for the golfers.

The second deals with the proper "requested" attire at our meetings. We, on the board, realize that we can only request general terms of dress. Please remember that if coat and tie, or casual, or sport coat is requested it is usually by the host club; and after all we are all guests of that particular club. For us to stay in good graces and, perhaps, utilize that club again in the future I personally recommend that we adhere to their wishes.

If you know of any other solution, please contact me and we can discuss them.

While I have your ear, I would like to congratulate four of our Northern California members.

1. Manuel Cardoza, Cypress Point Club, for hosting USGA Walker Cup Matches
2. Mike Phillips, Pebble Beach, for course preparation USGA Mens Open
3. Tom Unruh, Del Paso, for course preparation USGA Womens Open
4. Tom Christy, Almaden, for course preparation the upcoming LPGA Inamori Classic

These people symbolize, to myself, what we, as members of GCSANC, are striving for. The professionalism, achievement, and recognition of a job well done. CONGRATULATIONS!

DEADLINE DATE for the Superintendent-Professional Tournament has been changed to October 18, 1982. So far the response has been very poor. If there is not an adequate field by the 18th the tournament will be cancelled. Get your entries in NOW.

+++++

TANK MIXING FUNGICIDES

Improved broad spectrum disease control and greater cost per application efficiency can be achieved by tank mixing fungicides. To avoid phytotoxic injury to plants, a few simple rules should be followed

1. All insoluble fungicides may be tank mixed at label rates.
2. One soluble fungicide may be tank mixed with any number of insolubles
3. If two soluble fungicides are mixed, half rates should be used.
4. If soluble fertilizers are added at a rate exceeding 2 oz/100, the spray should be watered in.

By utilizing this concept, the superintendent can tank mix a spray solution combination of: a soluble contact-fungicide, an insoluble contact fungicide and an insoluble systemic fungicide, for example. Light rates of nitrogen or iron could be added to enhance color, if necessary.

NAUMANN'S NORCAL NEWS - Don Naumann

Don Baker, Sr is now at Yolo Fliers Club in Woodland.

Tom Christy at Almaden CC is now constructing a new wing onto his shop. He will be doubling his existing space. Tom is also hosting the Inamori Golf Classic September 28 -October 3. This is a LPGA tour event.

Steve Carlton is also in the construction business. He is putting in showers and a lunch facility at San Jose CC for his crew.

Fountain Grove is the name of a new golf course being put in Santa Rosa. The architect is Bell and the construction company is Fairway Construction from Washington.

Dean Gump reports that the new hybrid bermuda driving range tee, put in last fall by Jim Prusa, is growing extremely well. Pasatiempo is in Santa Cruz and there was skepticism on whether it would make it.

Nematodes were identified at three courses in the S.F. area. The greens especially became blotchy, weak and turf loss occurred. Nematologists at U.C. Davis identified the problem and nematocides (Dasanit or Nematicure) were applied. It is hopeful that the nematodes were the main reason that the course had so much disease problems in the winter, including cold weather pythium.

It is this reporters opinion that Southern Blight is much more widespread than people have thought. I preliminarily identified it at four courses in the Stockton-Sacramento area on two courses in the San Jose area this summer. All of which didn't think they had the problem.

As most people know, T & T Distributing closed in August. Aart de Vos is now working with McKay Associates in a management position. Jerry Gordon is now working with Robinson Fertilizer in San Diego. I, Don Naumann, started my own company, Sierra Pacific Turf Supply. I am a commissioned agent for El Camino Crop Supply and Germain's Inc.

If you have any newsworthy items, please call me at (408) 559-8893 and I will put them in my article.

+++++

BOB Ford asks "WHAT DO SUPERINTENDENTS DO IN THEIR SPARE TIME? and reports Allan Schlothauer of the Villages decided to enter a contest and write a radio commercial for his favorite recording star "Juice Newton". Al's commercial was one of the top five chosen to air on KEEN radio and then won the grand prize. Have a good weekend at Marriotts.
