PRESIDENT'S MESSAGE

The Golf Course Superintendents Association of Northern California is a unique and valuable part of our lives and profession. But many times I believe we forget some of the basic ideas and beliefs it was based on.

When is the last time you read the Association's Code of Ethics, not only the violations but the beginning sentence, "In the end that honor and respect may be enjoyed by all the Golf Course Superintendents"?

When is the last time you read Article I, Section 3 of our by-laws? Our OBJECT: The purposes of this Association shall be to unite the golf course Superintendents of Northern California into a cooperative group for the collection, preservation and dissemination of scientific and practical knowledge, thereby effecting a more efficient and economical maintenance of

golf courses and improving and enhancing the prestige and efficiency of its members. "Our" Association is for your benefit. Support your Association!

Many thanks to Joe Rodriguez, his staff, and the staff at Rossmoor for their hospitality in hosting our May meeting. The lunch was excellent and from all reports the golf course was in excellent shape. Well done! Many thanks to Jim Borneman for an excellent presentation on the water situation in Northern California; well done Jim for it does affect us all.

See you next month at San Francisco Club. Remember golf is restricted. Good luck to John Fleming and the staff at Olympic Club for a successful U.S. Open.

A handwritten signature in dark ink, appearing to be the initials "AS".

HOST SUPERINTENDENT

BOB KLINESTEKER lived in Grand Rapids, Michigan for 27 years before getting married and moving to California. He worked on golf courses for 5 years before attending Michigan State University and earning his B.S. degree in Turfgrass Management. He worked as Assistant Superintendent at Kent CC for 2 years and as Superintendent at Silver Lake CC in Grand Rapids for 2

years. Bob started working at the San Francisco Golf Club in 1982 under Paul Paulsen. Paul retired in the spring of 1983 and Bob assumed the position of Golf Course Superintendent.

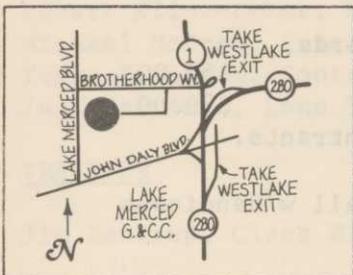

The San Francisco Golf Club was first started in 1895 on the site now called the Presidio Golf Club. The original clubhouse still stands as part of the Presidio Clubhouse. In 1905, new land was purchased east of Sloat Blvd. by the members and the old Presidio links were abandoned. The new San Francisco Golf Club was played until 1911 when they were informed that

they could not renew their lease on the land. New acreage was then purchased on the present sight.

A.W. Tillinghast was awarded the job of designing the new course which wasn't completed until 1918. One point of interest is the 7th hole. Tillinghast often spoke of this hole as his favorite of all the holes he had designed. It is also the scene of the most famous of all the Wests duels fought in 1859 between Senator Broderick and Judge Terry.

No major design changes occurred until 1950 when the Club faced possible condemnation of a substantial portion of their land on the easterly boundaries for highway purposes. The present 14th green was the old 13th. The old 14th became the 13th and the 15th tee is located where the 14th is today. Mr. Harold Sampson of the Burlingame Club planned these changes. Other than plantings, this was the only major physical change ever made.

*REMEMBER - GOLF is limited to 72 only. MEMBERS ONLY FOR GOLF. Guests welcome at lunch. Must take Caddies - \$20 plus tip.
