PRESIDENT'S MESSAGE: As my term of President of GCSANC comes to an end, I would like to express my sincere thanks to the board members and other committee members for their support and hard work over the past year. A very special thank you to Myrtle Wagoner for her continued service as executive secretary, your hard work does not go unnoticed. Many thanks to you, the membership, for allowing me this opportunity over the past year. It has been a rewarding and enlightening experience.

We have a fine organization that will continue to grow with the excellent leadership of the new Board. Best of luck to them in 1988-89.

I hope to see you at Santa Clara Golf & Tennis for the ANNUAL MEETING. Remember------ Golf will be a "Scramble" so get your name and Handicap to me as soon as possible. There are no preferred foresomes this month......

ALLAN SCHLOTHAUER, CGCS

Host Club: Santa Clara Golf & Tennis
2501 Tal luto Way
Santa Clara, Ca, 95054
Day: Monday-April 11,
Cancellation: 408-980-9580

Board: 6:30 A.M.
Election: 8:30 A.M. (Voting Members Only)
General
Meeting: 11:00 A.M ALL INVITED.
Lunch: 12:00 P.M. [$14.00]
"Scramble" Golf 1:00 P.M. GOLF CARTS MANDATORY [1/2-$8.00]

VOTE

Don't worry if it takes a while for the new approach to stick.
OUR HOST AND HIS GOLF COURSE

A1 was born and raised in Eastern Colorado, and after a tour of duty in the army moved to California in 1970. He began his golf course career at Almaden CC in 1974 under the direction of Bob Ford as his assistant. In 1978 A1 went to the Villages Golf and CC as the assistant to Jim Ross. When Jim took another position A1 was promoted to Superintendent in 1981. After five plus years as superintendent A1 became certified through GCSAA, and then in July of 1987 took the Superintendent's position at Santa Clara Golf and Tennis complex which is manged by American Golf Corp.

The relatively long (6853 yards from the blue rating marker) and rolling golf course with many blind shots, and the ever present afternoon wind which blows off the southern tip of San Francisco Bay, has accommodated over 77,000 rounds in the 10 months American Golf has managed the golf course. Built in an area which is very flat, the course rises from the surrounding ground level to a height of about 80 feet at the 12th green. The rolling hills were created by bringing in some 950,000 yards of fill to cover the existing cap over the land fill and the addition of on foot of sand over the tees and fairways was included in the 165 acre site. Features of the course include a 440 yard par four (15th hole) which plays directly into the wind and a lone par three (236 yards) which plays into a three-quarter wind along with large, undulating pencross greens. The NCGA rating is 72.2 from the blue and 70.5 form the white.

Tom Hale is the Head Professional.

Richard Muzzy is the General Manager.
dependable staff, and Kikuyugrass control are causing major maintenance headaches. It was interesting to see that in this sector of Golf Course Maintenance, golfers are perceived as a problem more so than in the Municipal or Public sector. Overall, it is interesting to note that 33% of the respondents have either poor irrigation or are experiencing many problems with wet and dry spots, poor coverage, and poor control of their systems. 10.5% have heavy play (COMPACTION) problems, 8.5% have staff problems, and 5% have equipment maintenance and problems with poor soils and equipment maintenance, and the remaining responses address golfers, fungus, Poa, carts, and bunkers.

As Spring approaches, I look around and see blooming flowers; feel the warm and soothing sun, and notice that everyone seems to have a little zip to their walk.

On the matter of the second question: What is expected from GCCA, 2/3 of the responses said that they want information and education through the meetings and the newsletter. (I'm doing me best.) Another 1/3 of the members want camaraderie with their peers, and the remaining responses are concerned with improvement of our professional image.

PAUL DIAS, CGCS

Do You Just Belong?

MILORGANITE MAKES MILWAUKEE FAMOUS!

Milwaukee is the land of cheer - German cooking, ale and beer; They eat and drink from morn ’til night, And then they make MILORGANITE!

Their baseball team is quite their pride, It’s fame had traveled far and wide. The grandstand has a room in sight where they can make MILORGANITE!

After the game they go to dinner, It doesn’t matter who’s the winner - And after sleeping through the night, They make some more MILORGANITE!

I state without equivocation, This chore has keen cooperation; It’s manufacture is an art, where everybody does his part.

Old men, young men, perfumed ladies, Boys and girls and even babies; Grunt and strain and do what’s right, To pile up more MILORGANITE!

Keep things in perspective.

Elite clones are used for crossing and progeny testing.

**MEMBERSHIP**

Congratulations to the following who have become members of our group:

James Ferrin, Cameron Park CC, Cameron Park, Class A.
Thomas Hagan, Escalon GC, Escalon, Class A.
Jeff Hardy, Moffett Field GC, Moffett Field, Class B.

30-Day Waiting

Edward Ferreira, Royal Vista GC, San Ramon, Class B
Thomas Novak, Van Burkirk GC, Stockton, Class B
David Rosenstrauch, Orinda CC, Orinda, Class B
Darren Markus, Gilroy GC, Gilroy, Class B

Transfers

Ken Schwark, Richmond CC, Richmond, Class B
Tim McCoy, Tayman Park GC, Healdsburg, Class B

New Today

Larry Johnson, Mather AFB, Mather, Class B
Timothy Thilo, Peach Tree CC, Marysville, Class A
Robert Neal, Reed Equipment, Stockton, Class F
Electronic Bulletin Board for the Turf Industry

TURFBYTE, the first computer-accessible bulletin board for the turf industry, opened its doors this month for anyone desiring to take part in a new and unique way of communicating. Centrally located in Lawrence, Kansas, it offers the turf manager a way to gain valuable information and insight through the sharing of experiences from across the country for the price of a phone call.

The use of electronic bulletin boards to trade information among persons of similar interests is on the increase nation-wide. No longer just for computer experts, telecommunications is now common in all professions, and the use of bulletin boards offer a renewed sense of community in a world which has grown too large to easily assimilate. It is reminiscent of the old-time “party line” concept which kept the neighborhood together through a bit of harmless eavesdropping. With bulletin boards, everyone is encouraged to listen in and participate in the discussion, though not necessarily at the same time. Being able to join a discussion at one’s convenience is the real value of this type of communication and a reason for its rapid growth.

TURFBYTE evolved from an idea presented in the November 1987 issue of Golf Course Management on telecommunications by Jon Scott, Valhalla GC, and Bill Spence of the Country Club at Brookline, site of the 1988 US Open. That article interested Duane Patton of the Lawrence (KS) Country Club. With the guidance of Dale Gadd, founder of his own computer bulletin board, TURFBYTE was created. At present, Duane is the system operator, or “Sysop” in computer jargon, and runs the service on his office computer at the club. Duane, and the others using TURFBYTE, welcome all newcomers to the board, and encourage anyone with a computer and telephone modem to sign on and become a regular contributor.

“Connecting to TURFBYTE is as easy as dialing a number,” says Scott. “All you need is a computer modem and some type of communications software. When a connection is made with the bulletin board, simple, friendly instructions quickly get you signed up and communicating.”

A typical visit takes five to 10 minutes once one becomes familiar with the system. First visits are slightly longer, but a few extra minutes reading instructions and bulletins pay off in faster visits. Messages from other users are read on command and replied to or commented on at will.

“The real value of the bulletin board concept depends on the user’s participation in a discussion,” Patton offers. “One subject may have as many comments or suggestions as there are users,” he continues. “Messages to specific individuals can be addressed and sent very much like letters, and can be either private—seen by only the receiver, or public—shared by all. Whole text files and public computer programs, called shareware and public domain, can be sent to the board for all to download and use. Industry announcements are posted in the “Bulletins” section for all to read on sign-on. Messages can be left requesting a return phone call at a specified time, eliminating the need to play phone tag.”

Patton and Scott feel the uses of the board are varied and many, depending on the expertise and needs of the visitor. “It does not take long to get started,” says Scott. “The greatest fear I had was the idea that the phone meter was running, and I’d see a big bill cross my manager’s desk. Now I am spending less total time on the phone than before and able to make my call when the rates are lower. That is saving money, and at the same time, I am gaining valuable information I might otherwise miss.”

TURFBYTE currently supports 300- and 1200-baud modems with parity settings of 8 bits; no parity, 1 stop bit. The phone number is 913/842-0592 and the hours of operation are from 4:30 p.m. to 7:00 a.m. Central Time daily. Patton is available during business hours for voice communications by dialing the same number. Jon Scott can be reached at 502/245-1715 for further information on accessing TURFBYTE.
