If the playing field is not long enough to accommodate 13 yards behind the goal, the goals must be moved closer together to maintain this space. Please reference Page 8 in the Rule Book.

Our State Rules Interpreter, Sue Paige, will contact all official's chapters. Please advise your grounds crew.

*Barry Imboden, Supervisor of Buildings & Grounds at Hunterdon Central High School. He successfully had slit drainage and irrigation installed on his high school football field in June of 2002.

Playground Safety Certification Course, for information call 732-568-1270.

DID YOU KNOW? The application of many pre-emergent, grassy weed (crabgrass) control products will interfere with the germination and development of desirable grasses when applied close to the time of seeding.

Moyer & Sons, Plant Nutrients offers a complete line of professional sport turf care products to deliver your quality expectations. Custom blend liquid sport turf fertilizers, M.O.S.T. organic fertilizers, Moyer Green Gro granular sport turf fertilizer, exclusive grass seed and erosion control products. Contact our New Jersey Turf Consultant.
