As a Rutgers grad and member of New Jersey Turfgrass Association (NJTA), I have been to many field days over the years. While having a conversation with a friend recently, I came to realize that there are still a few people that have not attended and are not familiar with what field day has to offer. I thought I would take a few lines to give an overview and encourage all interested parties to attend.

The Rutgers Turfgrass Field Days are an annual event where the Rutgers Farms that devote space to Turfgrass research invite the public in to see what is new and exciting in the Turfgrass world. The two-day event is divided into golf and fine turf on one day with the second day concentrating on lawns and athletic fields. The number of people attending can get quite large so we split the attendees into three smaller groups. Don’t worry though, because the groups will be rotated and everyone will have the opportunity to visit each and every scheduled stop on greens and fairways, how to avoid failure of crabgrass pre-emergent.

Visit the event and you will quickly notice that there is a real world approach to doing research at Rutgers. Questions that the industry may have on such things as cultural management of disease, managing water use on greens and fairways, how to avoid failure of crabgrass pre-emergent applications, and what are the best grass varieties to use for specific situations (continued on page 14).

**What's a Field Day?**

By Pedro Perdomo

*Editor’s note: This article first appeared in the Spring 2009 edition of NJTA Clippings & Green World*
What’s a Field Day?
(continued from page 8)

are answered here. The researchers will highlight what they have found and what are other questions still need to be answered. For those of you needing pesticide credits you will find a healthy amount of pesticide credits for New Jersey and many neighboring states.

If you get the opportunity to attend this year make sure you bring your questions. You may also want to bring a notepad to write down all of the tips that you will get during the day. Also, bring your appetite because the barbeque style lunch has become a field day tradition. And save room for the brownies.

Pedro Perdomo is Director of Research & Regulatory Affairs, Cleary Chemical Corporation; and Board Member and Field Days Chairman, NJTA.

Just a Reminder:

SFMANJ has a new address and phone number:

PO. Box 205
Pennsville, NJ 08070
856-514-3179

Our mail and phone calls have been forwarded since last August, however that will soon stop.

Please advise your administrators of our new address and phone number.

Also, our new email address is:

mail@sfmanj.org
