Our Thanks

Congratulations on an excellent 1968 "Suppliers Guide" issue! We especially appreciate your listing all the Diamond Shamrock proprietary products under their correct category headings. By listing all the products in your Suppliers Guide section, you do the reader a distinct service by giving him all the information and allowing him to make his own decisions as to which product he wishes to use...

And More Thanks

I have been receiving WEEDS TREES AND TURF magazine for the past several years. Personally I have found it very helpful and informative. I read every page usually including the commercials and classified ads.

The magazine is used as a teaching aid and frequent assignments are made to articles pertinent to the subject being taught. I even refer to the general advertising, and the ads for positions and employees are useful in my lessons on opportunities for employment. The students enjoy the magazine which is placed on our reference shelves with pertinent articles marked.

I have classes in turfgrass production and management, ornamental trees and units on weed control in nurseries, turf, trees, and wherever applicable.

The format of your magazine is good and the articles and other material interestingly presented. Keep up the good work . . . and keep the magazine coming my way.
