The Cover
A turf irrigation system is a pleasing sight, on or off. It's pleasing when it's off because of the green "residue" it leaves — healthy green grass. It's pretty when it's working, particularly when the spray creates a rainbow. The system on the cover is on the grounds of Turf Irrigation Corporation, Commack, N.Y. The rotary popups cover an acre. A. Brown, vice-president, sales, talks about the mushrooming demand for turf irrigation on commercial grounds. His article is on page 26.
