DIMINISHING PINES in Southern California is a direct result of pollutants. In mountain areas of Los Angeles and San Bernardino, smog has damaged or killed many native pines. The toll will likely rise as air contamination increases.

Pollutants are less severe in the San Diego area than in other sections, but still adversely affect ornamental pines.

In San Diego, contaminates are generally carried away by prevailing marine breezes, then dispersed in the atmosphere over the mountain ranges to the east of the city. This same breeze is responsible for carrying exhaust fumes from the freeway interchange across Presidio Park. Since the completion of this interchange, problems with Presidio Park pines have increased.

Ornamental pines most severely affected in San Diego have been (Continued on page 51)
FOR SALE

DOUBLE EDGE sod cutter blades.

For sale in Ohio: 10 gang Ryan sod cutter with extension on Ford chassis, $12,500.00; 1968 5T Alenco crane with 60' boom, $19,000, $9,000 down — will take contract for the balance. Phone 815 932-4209 evening.

FOR SALE

MODERN ESTABLISHED sod farm located North East United States. Fully equipped with irrigation, harvesting and maintenance equipment. Complete storage and repair facilities. Established sales outlets assure annual $6 million square feet or more. Sale offer for health reasons. Interested parties please write to Box 66, Weeds Trees and Turf, 9800 Detroit Ave., Cleveland, Ohio 44102.

USED EQUIPMENT

VERMEER model 18, series 188, $2,800.00; 1968 Asplundh 16" 8 cylinder chipper, $3,600.00; Hardie sprayer 35 GPM (as is), $300.00; 1966 5T Alenco crane with 60' boom extension on Ford chassis, $12,500.00. Osborne Bros. Tree Service, Mentor, Ohio 44060. Phone 946-4355.

FOR SALE — Sky Worker 50 foot working height. Model 1044A, modified 1980 F-600 Ford truck. Actual miles, $10,000, good condition, just checked over at factory. Glenn Sowers, Jr., P.O. Box 74, Sycamore, Ohio 44368. Phone 419 927-9732 after 6:00 P.M.

FOR SALE: 7 gang Roseman mowers, $1150.00; 13 gang Roseman, $2100.00; 18" Ryan sod cutter with Rollyrider attachment, $795.00. Foukes Seed, Fall River, Wis., 53932. Phone 414 326-5267.

Pine Tree Rinse (from 11)

Pinus halepensis and Pinus radiata. High calcium content of the Colorado River water is a contributing factor to the weakening of these trees, making them susceptible to infection with red spider mites and borers. Varied efforts, including sprays, fertilizer, and acidification of the soil, to bring these trees back to health have had little success.

George Kempland, Park Supervisor for the City of San Diego, hit on the idea of using the city fire department's snorkel truck to wash the trees in Presidio Park.

"I heard that the snorkel was used in periodic drills in a parking lot of Balboa Park," said Kempland. "I thought instead of just wasting the water that it could be used on the trees in the park. We need the snorkel because the pine trees are tall." Operation Hose Down thus became a coordinated effort of park maintenance and fire department personnel.

"The trees washed are located in lawn areas and most water was absorbed," noted Kempland. "Water which did fall on paved areas ran into canyons and was also used." Clear water was pumped. It fell from the trees black, rinsing both grime and dead needles, plus other accumulated debris. Rainfall in the San Diego vicinity being moderate, the washing did more cleaning than the heaviest rainfalls.

"Trees took on an immediate healthier appearance and showed a noticeable growth within 30 days," said Kempland. "We anticipate using this system in late summer and again in early fall. If repeatedly successful, the operation could be expanded throughout San Diego city's parks."

James R. Garinger, a captain in the San Diego Fire Department, explained the operation from the fire department's point of view.

"We decided to use the snorkel rather than the aerial ladder truck because the better maneuverability of the snorkel as a water tower. You have to set up a nozzle and hose on the aerial ladder, where on the snorkel the water tower is permanent," said Capt. Garinger. "You just connect the hose at the base of the snorkel."

"We asked George Kempland to stop us if he thought we had too much pressure, doing more damage to the trees than good," said Capt. Garinger. "It worked out fine, each fireman got a chance to control the nozzle and move the snorkel around. This was good training and water served two purposes —training and maintaining trees.

CLASSIFIEDS

SAVE TIME AND TREES

WITH BESELER TREE SLINGS

• Less digging, adjustable
• For any soil condition
• No skill required
• Quickly on or off
• Controlable tilt
• Patentend
