Managers Guide
To Equipment and Supplies
Alphabetical Listing of Suppliers

Making the right decision in selection of equipment and supplies is one of the most important jobs of a manager in the Green Industry. Besides being an important item on an investment budget, equipment must also be maintained. This calls for wide initial selection, correct accounting procedures for depreciation, effective preventive maintenance and proper major maintenance when needed.

Perhaps the most important step is in selection. It is with this in mind that WEEDS TREES and TURF presents this 1975 Green Industry Manager’s Guide to Equipment and Supplies.

The guide is in two parts. Manufacturers and their equipment and supplies are listed first. Advertisers are in bold face type. Product groupings and manufacturers of a particular item are listed second. Because manufacturers add and delete product lines, change names and generally never remain static, omissions of certain manufacturers or product lines are unavoidable. Your comments and suggestions are invited to help improve future editions.

HOUSING

In 10 years of man-controlled parentage breeding and over 7 years of university and field testing, "Adelphi" has earned a top rating for overall performance.

"Adelphi" offers the features most wanted in turf. Professionals and home gardeners, alike, are making it the most widely accepted and universally acclaimed bluegrass in 30 years.

For good looks throughout the entire growing season…excellent density…good disease resistance and tolerance to moderately close mowing, it's... MAN-MADE "Adelphi"... A FIRST IN TURF!

WEEDS TREES AND TURF
Control your fungi problems

FROM TEE TO GREEN

Use **Terrazole**

To Fight Cottony Blight, Grease Spot, Damping-Off

Terrazole soil fungicide is your best weapon against Pythium fungi—the cause of grease spot, damping-off and cottony blight in your turf.

With a case of Terrazole in your storage shed, you're set to act fast at the first sign of these turf diseases. Terrazole goes to work quickly and provides effective control of the problems caused by both Pythium and Phytophthora. Repeating at 5 to 10-day intervals provides preventive control. Keep your best weapon against Pythium on hand. Keep your greens green, your golfers happy.

Use **Terraclor**

To Control Brown Patch

Terraclor soil fungicide is the answer to Rhizoctonia control—the fungus that contributes to the formation of Brown Patch in Southern turf grasses.

Terraclor is easy to apply in liquid or dry granular form. Usually one application at the first sign of disease is all it takes.

Be sure you have Terraclor on hand. It's good assurance for healthy fairways and greens.

Write for complete information.

WEEDS TREES and TURF
To find out how good our Gold Star Digger really is, cut a hole in this page.

A good place to start is right over there at the corner of this coupon. Because the sooner you do, and the sooner you send in the coupon, the sooner your local Servis dealer can set up a demonstration.

The Gold Star Post Hole Digger & Utility Crane is one of the most useful combinations you can have.

It works fast. You can dig holes for fence posts, shrubs or trees, for example, with the standard 4' x 9" auger. Or you can use our optional 6" or 12" diameter augers.

There are also optional extenders to make the augers either 8" or 14" longer. And the points and cutting blades are replaceable.

But even with all that, you still have a rugged 1,500-pound capacity utility crane and a complete 3-year warranty.

The Gold Star fits all Category I standard three-point hitch tractors, but there are also hitch pins so you can use it on a Category II tractor.

Now, dig in and start cutting. Fast.

Hesston Front Runner® GMT...
really ahead of the times!

Made-over or make-do equipment just won't do the professional job of groundskeeping you want the year around. This one performs in all seasons: mowing grass...vacuuming lawns...clearing snow...moving earth. And it performs far more efficiently than a scaled-down farm tractor.

The Front Runner, built specifically for grounds maintenance, is a tough, gutsy tractor with front-wheel hydrostatic drive and hydraulically controlled front-mounted attachments. Its top features? Articulated steering and vacuum pickup. The center pivot lets you mow easily around trees and shrubs, along curving walks and drives—usually in a single pass. An integrated vacuum pickup attachment to mower heads is self contained—it deposits trimmings in the tractor's built-in carryall. If you do need to stop and back up, there's no bulky trailer in the way! Your speed is infinitely variable from 0 to 11 mph.

Hesston Front Runner with exclusive articulated steering bends in the middle for easy maneuverability around obstacles in close quarters.

Conventional solid frame garden tractor with belly-mounted mowers can't match the easy maneuverability and up-close cut of the Front Runner.

The Front Runner GMT is available in three models—16, 18 and 19.8 hp. Choose from 48", 60" and giant 80" batwing mower heads. All attachments fit all models so you can get the capabilities and power most efficient for you. Send for color literature that includes specifications on all three models.
