In 10 years of man-controlled parentage breeding and over 7 years of university and field testing, "Adelphi" has earned a top rating for overall performance.

"Adelphi" offers the features most wanted in turf. Professionals and home gardeners, alike, are making it the most widely accepted and universally acclaimed bluegrass in 30 years.

For good looks throughout the entire growing season...excellent density...good disease resistance and tolerance to moderately close mowing, it's...MAN-MADE "Adelphi"...A FIRST IN TURF!

Western Texas College is one of west Texas' newer institutions of higher learning, having opened in new facilities in the fall of 1971. Only one building remains to be completed, but landscaping has not been finished. The students have had the opportunity to study landscape plans and plants by working on the landscaping.

In the spring semester, which is already underway, the students will be concentrating on the study of soils and fertilizers, turfgrass science, pest control and landscape construction.
