AAN’s “Discover” gains momentum

Retail and landscape member firms of the American Association of Nurserymen are discovering new selling possibilities through the AAN’s “Discover the Pleasure of Plants” promotion program, begun early this year.

Although the consensus of those members polled on the efficacy of the plan thought its success or failure was “too early to tell,” they did say business trends seem to be on the upswing. Since the program’s activity is designed, in part, to help extend the purchasing season beyond spring into summer and then reinforce the fall planting promotions, AAN spokesmen believe more indications of results should be available later on.

The “Discover the Pleasure of Plants” promotion program is designed by the AAN to coordinate with this year’s international advertising action of the Nursery Marketing Council which began Memorial Day weekend this spring and Labor Day weekend in the fall, with network radio spots, tie-in commercial tape for local use and, new this year, ads both spring and fall in four major consumer magazines.
