**McClure named new director of pro lawn care association**

Ann McClure has been named executive vice president of the Professional Lawn Care Association of America by its Board of Directors. McClure succeeds James R. Brooks, who announced his resignation from the organization last month after serving as executive director and executive vice-president for the last seven years.

McClure was most recently executive administrator for The Irrigation Association. Prior to that, she had been director of meetings for the Associated Landscape Contractors of America.

C. Reed Funk, Ph.D., was presented the annual Distinguished Service Award by Clayton Yeutter, U.S. Secretary of Agriculture during ceremonies in Washington, D.C. June 13.

Dr. Funk, of the Rutgers University State Agricultural Experiment Station, received the award "for distinguished scientific achievements in turf breeding and outstanding contributions to the turf industry and the general public."

Stan Cichuniec and Dorothy Borland were honored by the Rocky Mountain Regional Turfgrass Association. Cichuniec, supervisor at Foothills Metro Recreation and Parks District, received the "Distinguished Service Award."

Correction in Seed Pocket Guide

The seed generation and seed tag values chart appearing in the July "Pocket Guide to Turfseed" contained some inconsistencies:

1) The chart should have been labelled "Kentucky bluegrass seed generation and seed tag values," and;

2) The chart incorrectly noted that 2.0% Poa annua seed is allowed in certified blue tag seed.

Landscape Management regrets the errors, which also appear in the source chart in "Turf Manager's Handbook" by Dr. W.H. Daniel and Dr. R.P. Freeborg of Purdue University.
