It's time to act—now!

HAZELTON, Pa.—PLCAA president Neal DeAngelo of Lawn Specialties expects the Supreme Court's ruling to have "immediate impact" as local municipalities resurrect past, failed initiatives. An example is Pennsylvania’s Packer Township, which tried to initiate a pesticide ban 18 months ago.

Although DeAngelo expects "some activity" in the way of ban initiatives, he does not believe pesticide bans will ever catch on.

DeAngelo insists that industry must take "immediate action," preferably by joint efforts between the PLCAA and state lawn care associations.

"If we can nip a lot of these (proposed laws) in the bud, and stop them from ever beginning in the first place," says DeAngelo, "I think we'll do our industry a great service."

DeAngelo says associations need financial support and time commitments to relay information, "whether it's just brochures, whether it's video tape programs, something that they can take to their local garden clubs and rotary clubs and borough officials to help educate them." —T.M.

PESTICIDES

Pro golfer questions source of health woes: could it be pesticides?

An Oregon professional golfer has been told his health problems may be the result of pesticide ingesston from the course. However, questions remain about the mysterious case which has set off some alarms in the golf and green industries.

Golfer Peter Jacobsen has said his symptoms of dizziness, listlessness and fatigue may not be a sinus condition, but rather linked to the practice of putting golf tees into his mouth after they'd been used on the turf surface.

Jacobsen’s case figured centrally in a mid-June (Salem, Ore.) editorial which condemns chemical use in many lawn care operations, terming his case a "living example of a problem that few realize and even fewer want to acknowledge: the danger of a perfect lawn."

According to Oregon Golf Course Superintendents Association president Dick Malpass, Jacobsen learned from a homeopathic doctor that some phosphoare E has settled in his liver. But Malpass says he has checked with Oregon State University officials who have told him that they’d not heard of the substance.

"We’re just keeping our fingers crossed, waiting to see how this will be resolved," said Malpass in mid-June. "We’ve put out feelers. The main thing now is to find out if there is just such a chemical."

Therein lies the mystery.

Oregon State University toxicologist Terry Miller, contacted by Malpass, says he has never heard of phosphoare E.

"I can’t find it anywhere,"

NEWS BRIEFS

RETFIREMENT INVESTMENTS...Alabama has come up with a unique idea for developing new high-quality public golf courses: let state employees invest retirement funds. At least 12 championship-caliber courses are now planned. “Golf courses are a sound investment, so we’ve taken a leadership role in their development and construction,” says Dr. David Bronner, CEO of Retirement Systems of Alabama.

ON TO DALLAS...The Golf Course Superintendents Association of America has moved its 1994 conference and show from Houston to Dallas. The show, Jan. 31 to Feb. 7 three years hence, was moved because it outgrew Houston’s George R. Brown Convention Center.

A UNIQUE IDEA...The Grounds Management Association of Wisconsin added a unique public relations tool this year: sponsorship of a poster contest titled “Benefits of Turf.” The competition was open to any sixth- through eight-grader in the state, and 500 posters were received. Winners at each level received $200 savings bonds, and the grand prize winner received an all-expense paid family trip to a Milwaukee Brewers baseball game, hosted by Brewers grounds manager Gary Vandenberg.

A NATIONAL CELEBRITY...Bill Thornton, president of Thornton Environmental Industries, Maineville, Ohio, has been named to the board of directors of the National Federation of Independent Business. The NFIB is the nation’s largest small-business advocacy organization, headquartered in Washington, D.C. Founded in 1946 by Thornton’s father, the company employs more than 150 people during the peak landscaping season.

AWARD-WINNERS...Nichols Lawn Service of Wichita, Kan. and the F.A. Bartlett Tree Expert Co. of Stamford, Conn., were recently winners of prestigious awards. Nichols was named 1991 Prime Contractor of the Year for four states by the Small Business Administration. President Larry Nichols was honored two months ago in Washington, D.C. Bartlett was one of four corporate recipients of the Green Star award presented by the Environmental Action Coalition of New York, N.Y. President Robert A. Bartlett Jr. accepted the award for the company’s urban and suburban tree preservation programs.

'OVER THERE'...George Toma of Kansas City, turf consultant to the NFL, has been helping prepare playing surfaces in Japan and Germany this summer. Japan was to host an exhibition game between the Denver Broncos and the Seattle Seahawks on Aug. 4 and Kansas City was to play the Los Angeles Rams there on Aug. 11. When Toma visited Tokyo’s MacArthur Park, he was greeted by Tokyo Parks Department and other officials.
