GOOD GROUNDS FOR GETTING A GANDY.

Our spreaders, rollers and aerators are rugged, reliable and ready to roll!

Gandy Lawn Spreaders are famous for extreme accuracy and rugged design. Stainless steel metering system allows precise application of fertilizer, granular pesticides, seeds — even sand and salt! Model widths of 24”, 36” or 42”, with choice of push handle or tractor hitch. Gandy “convertible” Lawn Rollers permit quick-flip handle/hitch conversion. Water-filled weights are 280 lb. for 24” width x 18” model, and 490 lb. for 24” x 24” model. Gandy Aerator Attachment clamps quickly around 24” x 18” Gandy Lawn Roller. Aerator’s welded 2½” spikes are angled to penetrate soil for aeration or to form pockets for seed or fertilizer. Gandy has been a trusted name in lawn and fertilizer equipment for more than 50 years.

Contact us today: Gandy Company, 528 Gandrud Road, Owatonna, MN 55060. Phone (507) 451-5430.

Call Cynthia Gladfelter at 216-891-2658 or toll-free, 1-800-225-4569, Ext. 658.

CUSTOMER SERVICE TIPS

On customer surveys...

by Ed Wandtke

Learning what your customers want or expect from your company is an essential ingredient in customer satisfaction. Conducting a survey of what customers want will provide you with ideas for improving the level and quality of your service. One effective—and cost-effective—method of surveying customers is to ask questions of any customer calling into the company. Any incoming call from a customer is an ideal time to conduct a survey. They will have an opinion.

Questioning at this time will enable you to receive instant response rather than a considered or covered response if you were using a questionnaire.

The phone survey should run no longer than 10 questions and should not ask the customer to provide explanations for their responses. Seek answers to specific questions, solicit suggestions from the customer which are directed to improving service, offering additional service, or ask them to rate your overall performance as a company.

Telephone and in-person surveys are a good way to gauge current customer satisfaction with your service. They should also be used to solicit from the customer suggestions about what they would like to see you offer or do differently in the future. Do not rely on input from surveys alone in deciding action or direction for your company. Ask your employees for their input. They are concerned where you are heading and want to be asked to be involved.

—For a sample customer survey, write to Ed Wandtke, 2586 Oakstone Dr., Columbus, OH 43231-7614.
