Two irrigation system controllers proving popular
Weather-Matic Co. says its two new LawnMate Controllers are being well received by irrigation specialists. Don Thompson, director of Weather-Matic's marketing and sales department says operation ease is one reason for the good reception.

LawnMate Controllers feature a nine volt standard alkaline battery which automatically turns on in the event of power failure. Programs and clock time are uninterrupted for a week with the back-up system.

Thompson says LawnMate installation time is lessened because a lower panel is removable allowing access to the field wiring terminal block. The unit is equipped with keyhole mounting.

LCS information display includes time, date, watering days, program values and days of the week. Rocker switches are used for all programming.

Two models are designed for seven and 12 stations.
