The most efficient and effective way to manage pond water elements comes naturally with Toro® aeration equipment. We use air to safely control algae, add oxygen, improve circulation, eliminate stratification and remove contaminants. Our in-depth knowledge combined with a broad range of products allows us to determine the precise equipment for specific sites, from decorative ponds to functional lakes. Naturally.

Flow Master Electronic Digital Flow Meters by Green Garde

- No moving parts — assures trouble-free operation.
- Measure flow rates from .3 to 3 gpm or from 1.0 to 10 gpm.
- Measure volumes up to 10,000 gallons.
- Handles working pressure from 5 to 500 psi; burst pressure is 1,000 psi.
- High accuracy of ±2%.
- Compact, lightweight, easy to use.
- Powered by long-lasting, field-replaceable 9-volt battery.

Just like a small sod cutter, the Blade does not spin, the oscillating motion does not throw debris.

Self-propelled and push models available.

Rugged design for commercial use.

Optional Blades:

- Disc Blade for cutting straight edge along sidewalks and driveways.
- Right Angle Blade for golf course sand traps, and flower beds.
- "V" Blade for removing a strip of turf along a sidewalk.

Since 1963, California Landscape Lighting has been a leading force in the outdoor lighting field. As we approach our third decade, we’re stronger than ever. To celebrate, we’ve planned a big year, beginning with our “Lucky 6 Sailing” contest. Each month, until the end of 1992, we’re giving away a cruise-for-2 to the Bahamas. A new contest will begin each month. Find out how you could win, by choosing the nation’s leading distributor of landscape lighting for all your lighting needs.

We were surprised to find the Walker gave a better quality cutting job on the Zoysia turf grass than the walk behind reel mower we had been using. In fact, the building management asked us to continue using the “new” mower on their project after the first week we used Walker. Best of all, while improving quality, we cut our job time with the efficiency of the Walker rider. And Walker fits the job because it was compact enough to fit in the service elevator to ride to the third floor park.

We invite you to discover Walker quality and efficiency on your top level work.
