12 Rebuilding the soil
Where do you start when you want healthy turfgrass and landscape ornamentals? With the soil. So if your soil isn't up to snuff, here's what to do.
Ron Hall

14 LM Reports: Dethatchers
Thatch build-up can rob turfgrass plants of valuable nutrients and siphon water from the root system. Here are some mechanical and chemical dethatchers you might consider.
Terry McIver

18 Mulching mowers
Critics of mulching mowers have been too harsh, says this University of Georgia expert. They are here to stay, because they're helping save the environment—in more ways than one.
Jerry Roche

20 Budget woes
Due to many changes—both good and bad—today's sports turf manager has to budget wiser, work smarter and communicate better.
Terry McIver

26 Making the mega-deal
Can you visualize it, before it happens? That's the first step toward actually selling the deal of your dreams, says marketing guru Joel Lerner.
Jerry Roche

28 Motivation and productivity
'If you rule with an iron fist, you get either malicious obedience or gleeful insubordination,' this expert says.
Jerry Roche

32 Bottom-up management
Ask your employees what they want and need for the company, solicit their suggestions—and then listen.
Ed Wandtke

41 High services, low prices
Because of the way NatureScape is run, it can adjust to the needs of its clients, and keep them happy.
Jim Guyette

44 Stopping financial leaks
One leak in itself is not dangerous to the well-being of your company, but many leaks can lead to disaster.
Dan Sautner

46 Point and click
Powering your business with the new computers is not hard to learn. With the advent of recent user-friendly programs, mastering computers is easier.
Bess Ritter May

50 Spring turf fertilization
Early spring is a time to review your fertilization program. Did your turf flourish last season, or was growth poor? Was it non-responsive to fertilization?
J.B. Sartain, Ph.D.

51 Keys to pruning
The key to pruning is knowing the difference between heading and thinning, says Dr. Gary Wade of the University of Georgia.

54 Turf in shade
Turfgrasses need at least four hours of full sunlight per day. You, however, can make certain decisions that will help turf in shady areas stay healthy.
Joseph M. DiPaola, Ph.D.
56 Forever open
The Merit Club has been granted a government easement, preserving it as open space for perpetuity. The course includes 30 acres of wetlands, a 30-acre savannah and a two-acre tree nursery.

60 Fertility management
This is a difficult aspect of managing high sand content sports fields and golf greens, and the related problems can be as insidious as any faced by a turf manager.
James Latham

62 A vital part of profit-making
Consultant Charles Vander Kooi says you don’t start making a profit until you pay your overhead, otherwise known as ‘the bill in the night.’
Ron Hall

66 Becoming certified
Professional turfgrass certification is finally here, thanks to a partnership between the University of Georgia and the PLCAA. Here’s the deal on CTPs.
Ron Hall

73 How goes the green industry?
According to statistics from various sources—the Outdoor Power Equipment Institute, Irwin Broh & Associates and Green Exports USA—the industry goes well, thank you.
