The Establisher improves seeding
Summit Seed offers a new seed enhancing mulch, The Establisher. Summit says you can achieve professional results with a drop or rotary spreader using this product. The Establisher absorbs water quickly (up to four times its weight), reduces soil and water erosion, and expands to cover the soil surface. The dark green/blue granules consist of clay particles, wood and cellulose mulch, and a specially formulated fertilizer. For more information contact Summit Seed at (800) 467-6748 and say LANDSCAPE MANAGEMENT let you know about The Establisher, or Circle No. 271.

Correction
Dimension, a preemergence herbicide from Rohm and Haas, was incorrectly described as a product of Monsanto, on page 18 of our February cover story. There are also no plans to produce a fertilizer/herbicide product with the Scotts Company. LM apologizes for the error, and regrets any inconvenience it may have caused.
