**Minnesota passes fertilizer bill**

**IPM mandated for all PA schools**

HARRISBURG, PA — Pennsylvania Gov. Mark Schweiker signed a bill this spring requiring all schools within the Commonwealth to adopt integrated pest management (IPM) plans by Jan. 1, 2003. The bill also imposes new pesticide notification requirements upon the schools.

**DHG acquires Express Blower**

CINCINNATI, OH — DHG Corp., the parent company of Finn Corp., bought the assets of Express Blower from Rexius Forest By-Products and formed a new company, Express Blower, Inc. Both Finn and Express Blower will continue to operate as stand-alone companies based in Cincinnati and Eugene, OR, respectively.

**Becker Underwood now global**

AMES, IA — Becker Underwood, Inc., says that the Canada and U.K.-based MicroGroup Ltd., which it acquired in 2000, has now officially assumed the Becker Underwood continued on page 15

**ALCA Maintenance event — be there**

ATLANTA — Reserve the weekend of Aug. 9-11 and start making your travel arrangements for the ALCA Maintenance Symposium that will be held here.

Symposium Coordinator Steven Glover, CLP, CEO of Symbiot Business Group, Sandy, UT, has put together an ambitious agenda. Event sponsors for the event are Husqvarna and Weed Man. Landscape Management magazine is the media sponsor for the Symposium.

It begins Friday with ALCA certification exams, or join colleagues in an afternoon tour of the five-acre, 24,000-sq.-ft. facilities of HighGrove Partners northwest of the city. This $18 million landscape company (the former Post Landscape Group) has offices in both Atlanta and Charlotte, NC.

---

**MAINTENANCE SYMPOSIUM SCHEDULE**

**Saturday (Aug. 10):**

- “Hazards to Avoid, Why Did it Fail?” by Bruce Wilson, Wilson-Oyler Group, Thousand Oaks, CA.
- “How to Move into a New Line Successfully” by Mike Sennett, CLP, Plant Interscapes, Inc., San Antonio, TX.

For more information or to register, contact ALCA at 800/395-2522 or visit the Web site www.alca.org.
Canada to overhaul pesticide laws

OTTAWA, CANADA — A nationwide ban on the cosmetic use of pesticides on lawns and parks is unlikely, Federal Health Minister Anne McLellan said earlier this spring. She made the statement while announcing a bill to overhaul Canada’s Pesticide Control Products Act.

"Our jurisdiction is in relation to safety," said McLellan, responding to repeated cries within liberal governmental circles to phase out all use of pesticides on turfgrass for "aesthetic" purposes. "Once something is deemed to be safe, then it is up to the provinces or municipalities as to how that will be used."

McLellan was referring to the June 2001 federal court ruling that upheld a pesticide ban by the community of Hudson, Quebec, Province. (In a similar case 10 years ago, the U.S. Supreme Court ruled that the small community of Wauconda, IL, didn’t have that right.)

McLellan said that amendments to Canada’s federal pesticide act will call for the scientific assessments of pesticides, particularly as they may affect children and pregnant women. The amendments would also require an automatic review of pesticides after 15 years, more inspections and higher fines for violations, according to reports from the Canada press.

CLIPPINGS

continued from page 14
name. “This consolidation further leverages the synergies between locations and products within a truly global entity,” says CEO Roger Underwood.

BlueBird closes Denver plant

CLEVELAND — BlueBird International, a division of Husqvarna Turf Care Company, closed its operation in Denver and is consolidating manufacturing in Beatrice, NB. The Beatrice plant, which now makes commercial mowers, will be making aerators, dethatchers, seeders, sod cutters, stump grinders, lawn vacuum systems and engine lifts when the move is complete.

FMC Corp. unifies customer service

PHILADELPHIA — FMC Corp. has consolidated the customer service functions for its Agricultural and Specialty Products Business sectors. The result will be expanded hours and more customer service reps.

CLIP Conference set at BWI

IJAMSVILLE, MD — The 13th Annual CLIP Users’ Conference, “Ready, Aim, Fire!”, will be held at the Baltimore/Washington International Marriott, Baltimore, MD, Nov. 19-22. Features of the conference include industry-leading speakers, roundtable discussions, one-on-one CLIP instruction, hands-on business workshops and more. Contact Karen Paulik at 800/635-8485, ext. 306, or visit www.clip.com.

Free CD targets longhorned beetle

LISLE, IL — The Morton Arboretum is offering a computer-based training tool to aid in the early detection of the Asian longhorned beetle. Funded by a grant from the U.S. Department of Agriculture Forest Service, the tool helps landscape professionals and others in the Green Industry spot the beetles early and take steps to remove the threat.

The Arboretum has already distributed the CD to a number of professional groups, including everyone who attended Chicago’s 2002 Greening Symposium. The training program is appropriate for both summary presentations and in-depth study.

For more information, contact the Morton Arboretum at ALB@mortonarb.org or visit the Web site www.mortonarb.org. Green Industry pros can receive a free copy while supplies last.
Iowa turf pros develop phosphorus policy

LISLE, IL — The issue of phosphorus in waterways (see pg. 18 in the May '02 LM) is causing turfgrass professionals around the country to reassess their use of phosphorus-containing fertilizers.

John Ausen, CGCS, Hyperion Field Club, reports in the May issue of The Reporter, the monthly publication of the Iowa Golf Course Superintendents Association, that the state's leading turfgrass groups are agreeing to limit use of phosphorus when:

- a soil test by a state certified laboratory indicates that levels of available phosphorus in the soil are insufficient to support healthy turf growth,
- deemed necessary by a licensed applicator, in their professional opinion or otherwise limited by the manufacturer's product line,
- the property owner is first establishing turf via seed or sod during the first growing year, or
- using organic turf fertilizers derived primarily from animal or compost waste that doesn't exceed a natural phosphorus content of 2% by weight.

Simply lasts the longest.

Among all broad-spectrum preventive fungicides, Heritage® is the longest-lasting. It works up to 28 days to prevent brown patch and most landscape ornamental diseases. That means fewer applications. And more time for everything else.

Tree worker receives national safety award

An employee of Swingle Tree & Lawn Care won one of three National Arborist Association Safety Awards for saving the life of a co-worker.

Derek Stroden, supervisor in Swingle’s Enhancement Services division, helped co-worker Robert Sasser escape a swarm of bees that attacked him after he cut into their nest while attempting to remove a tree limb. Stroden slowly lowered the bucket Sasser was standing in, but Sasser panicked while he was still ten feet off the ground and attempted to jump out of the bucket. He was still in his safety harness, however, so Stroden stood underneath him so he could put his feet on Stroden’s shoulders and undo the harness. The two men then ran for cover in the customer’s house.

Stroden had minimal stings, but Sasser had many all over his body, including 16 on his head.

“Derek’s regard for safety and his reaction to saving his co-worker’s life is a tremendous acknowledgement to him and our internal dedication to safety,” said Tom Tolkacz, president of Swingle.

Hire a Professional Irrigation Consultant

Independent irrigation consultants can help you save water, energy and money by applying their knowledge and experience to the efficient and effective design of irrigation systems. Find out how much by contacting a member of the American Society of Irrigation Consultants.
Howdy pardner, let's do business

GLENVIEW, IL — Autumn Tree Care Experts of Glenview knows how to turn a fun time into a sales and marketing opportunity.

Case in point: the April Spring Fling held at company headquarters for the Illinois Landscape Contractors Association (ILCA). The event drew more than 140 attendees.

Autumn Tree converted its industrial office space into a western hoedown complete with fence posts, barn doors, and mountain range backdrops. The casual setting lent itself well to putting guests at ease, opening the door for friendly conversations and relationship building opportunities.

Autumn Tree vice president Dan Klindera said the tree care company invested upwards of $10,000 from its marketing budget into the Spring Fling sponsorship this year.

He added that he believes the investment was well worth it, noting that over time, friendships established at the event will likely result in client relationships for Autumn Tree and other businesses and individual consultants in attendance.

"People came early and stayed late, and, overall, we think it was a sound investment of our marketing dollars," Klindera said.

"It just goes to show you that sales and marketing efforts don't always have to be strictly advertising-based, or direct mail pieces. Relationships are the most valuable marketing tool we have."

Most of the 140 attendees were landscape architects and contractors. Others included industry vendors, individual tree care consultants, and property management officials.

Among those "working the crowd" were Mariani Landscape of Lake Bluff, IL, Christy Webber, a Chicago-based landscaper, Mindy Maggio of Coromandel Home Owner's Association, Hendricksen, the Care of Trees of Chicago, and Bartlett Tree Experts of Ohio.

Contact Autumn Tree Care Experts at 847/729-1963, or visit the Web site at www.autumnTREE.com.

People & companies

Seed Research of Oregon's Mike Robinson stepped down as president to become director of international sales and marketing.
