COMPACT WALKER TRACTOR MEETS INDUSTRY’S LARGEST DECK

Walker Manufacturing Company, producers of compact riding mowers, introduces the industry’s first 74” Side Discharge Deck - the largest cutting deck for a mid-size tractor.

Although it is Walker’s first four-bladed design, this larger deck has many of the same features used on other Walker gear-driven decks. The narrow, tunnel design of the in-line, timed blades offers a true finish cut, aids in scalp resistance and gives the same powerful, clean discharge pattern that Walker side discharge operators have enjoyed for years. The combination of Walker’s full-floating deck suspension and castering gauge wheels at the back of the deck help hold the contours of the terrain and also help prevent scalping. Just like all other Walker decks, the DSD74 tilts up to 90° for easy blade and deck maintenance. Available Spring 2002.

Professional Results!

The improved PeCo Pro-12 vacuum system. Shown on an Encore machine, but designed to custom fit virtually all commercial Z turn mowers on the market today! All PeCo vacs have a self contained power unit that does not rob engine power from the mower. Featuring a fully mounted tapered aluminum box with obstruction free dumping from the seat. Each unit comes with a counter balance weight and a throttle kit for complete from the seat operation. Engine options range from a standard Briggs & Stratton 5.5 Hp to a 7 Hp Yanmar diesel with electric start. PeCo vacs, always efficient, always affordable.
