Professional series engines provide enhanced power, easier starting, longer engine life and smoother and quieter operation amid the toughest mowing conditions. The ReadyStart starting system requires no choking or priming, and the larger rewind engages more quickly with less pull force. The commercial quality, dual-sealing air filter extends maintenance intervals and provides significantly more air flow compared to standard filters. The filter element is an oval, automotive-style cartridge that uses racetrack and radial interface seals to keep dust and dirt out. Full pressure lubrication provides cooler operation and longer engine life. BriggsandStratton.com or 414/259-5333
