**Clean sweep**

The LB540 Power Broom is designed for the Ventrac 3000 series tractor. It can sweep and remove snow, leaves, dirt, light gravel and other materials from parking lots, sidewalks and other surfaces. Heavy-duty nylon bristles make short work of any clean-up job without damaging the surface below. A hydraulic cylinder angles the broom left or right from the operator’s seat. Adjustable gauge wheels set the height of work for precise adjustment. Optional outrigger wheels allow for controlled adjustment when de-thatching turf. An optional front debris curtain is available for less overthrow of material. Ventrac.com

**Ice management**

SnowEx presents its new, electric-powered push sprayers for sidewalks and other small areas. Available with a powder-coated steel frame (SL-80) or stainless steel frame (SL-80SS), both sprayers have a 13-gal., corrosion-resistant polyethylene tank. Each model includes an adjustable-height boomless nozzle, which sprays most salt brine and liquid ice melters up to 48 in. wide. The units also come with an adjustable spray wand for spot-spraying applications. A 12-volt electric pump and rechargeable battery powers the units. The pump is rated at 2 gpm at 60 psi. **Power play**

New for 4X4, half-ton and 1-ton trucks and SUVs, THE BOSS Snowplow introduces a 7.5-ft. Power-V XT Plow featuring a high-performance cutting edge, built-in curb guards and a snow catcher. Flared blade wings with an enhanced curl throw snow higher and farther than straight-blade plows for improved efficiency and less time on the job, the company says. An enclosed hydraulics package protects against corrosion and hydraulic freeze-up. A two-year limited warranty covers parts and labor. BossPlow.com
