Dow AgroSciences

Dow AgroSciences delivers innovative technology that exceeds market needs and improves the quality of life of the world's growing population. This is evident in the Turf & Ornamental products we recently have introduced, and several new products and technologies in our pipeline. That's our commitment to the industries we serve and, most important, that's our commitment to you.

Major product lines:

- ▶ **Dimension®** specialty herbicide provides premium season-long preemergence control of crabgrass, spurge, oxalis and other grassy weeds, along with early postemergence control of crabgrass. With multiple formulations, including water-based Dimension 2EW specialty herbicide, Dimension can be used over the top of field- and container-grown nursery and landscape ornamentals, and on established lawns, golf courses and commercial sod farms without staining surroundings.
- ▶ **Gallery®** specialty herbicide is the most effective preemergence herbicide for broadleaf weeds labeled for cool- and warm-season turf. It can be applied in spring or fall; helps minimize costly callbacks due to weed breakthrough; and provides control for up to eight months.

- ▶ **LockUp®** specialty herbicide is available through distributors as a formulated product for superior control of dollarweed in the South and clover and ground ivy in the North. It offers postemergence weed control to lawn care professionals, golf course superintendents and sports turf managers. It provides activity at extremely low use rates (0.02 to 0.06 lb. a.i./A) and can be applied to moist cool- or warm-season turf.
- ▶ **Eagle® 20EW** specialty fungicide is a liquid systemic fungicide for preventive and curative control of roughly 20 turf-destroying diseases, including dollar spot and brown patch. Available in convenient, easy-to-use containers ideal for use on home lawns and backyard fruit trees. It won't harm popular turfgrass and ornamental species.

Support:

We have dedicated individuals serving as sales representatives, technical account managers, sales managers and field scientists providing training, stewardship and solutions to formulators, distributors, university researchers and end users nationwide. Labels and MSDS are available at www.DowProvesIt.com.
