FERTILIZER

Amount of cadmium limits sludge fertilizer

Excessive cadmium in sewage sludge, a potentially dangerous metal in the food chain, hinders development of a sludge-fertilizer industry in Pennsylvania, say soil chemists at Penn State.

"A worthwhile goal is to develop such a fertilizer industry from sludge containing low amounts of cadmium, no more than 20 to 50 parts per million of cadmium in sludge," says Dr. Dale E. Baker. He describes 50 parts per million of cadmium as equal to 50 pounds in 500 tons.

According to Ann M. Wolf, graduate assistant in agronomy, cadmium in soil must be kept at very low levels since it remains within the plow layer and increases the plant and food chain concentrations of cadmium. Sewage sludge applied to Penn State test plots at 10 dry tons per acre for seven years increased soil test levels of cadmium from less than ½ pound per acre to 5 pounds an acre, an excessive level.

On properly limed soils, farmers can apply up to 30 tons per acre of low cadmium sludge without increasing levels of cadmium above 3 pounds per acre, Baker says. From this 30 tons an acre, farm crops will take on valuable nutrients, especially nitrogen and phosphorus.

EMPLOYMENT

Arborists speak on employee incentives

Two owners of large tree service firms specializing in private tree care spoke about employee incentives at a recent meeting of the National Association of Arborists. Warren Tamke and Jerry Osborne have both implemented successful incentive programs, and in different ways. Both seem to be returning profits to their own company.

"We know how to make money in the tree business so we decided that our own corporation was our best investment," Tamke says. To follow through with this and motivate employees, Tamke says "an employer must set up a system to permit an employee to earn more money, share in profits, grow with the company, and have security."

Tamke's firm has used an ESOP, an Employee Stock Option Plan. This is a government approved profit sharing plan which permits a company to contribute stock and cash in amounts up to 15 percent of the gross pay of all of the eligible employees to a trust fund.

Government approval is necessary, Tamke says, because at the end of the year you are taking taxable profits, purchasing stock, and then giving the stock to or putting the stock in trust for the employees.

"In our case the fund is primarily invested in the stock of our corpora-
tion so that the employees who are eligible will become owners of the corporation," Tamke says. "We can also invest the money in bonds, savings accounts, purchase other companies, insure the life of key employees, and even purchase real estate. Whatever we do is funded totally by the corporation."

Advantages of an ESOP, according to Tamke, include improved productivity and morale, personal involvement for each employee, and security.

We've had so many turf tips we thought we could write a book about them....

Osborne started a profit sharing plan in 1970 which grows through investment and is compounded, independent of earning from physical labor.

“We have invested the proceeds in real estate and banks but now we invest in ourselves,” says Osborne. “Sometimes instead of contributing cash to the plan at the end of the year, the company will contribute a piece of equipment and then lease it back. We also make car loans to the employees at 1 percent per month.”

Pride in their job and equipment plus a friendly work atmosphere are also motivating factors for employees in Osborne’s opinion.

His crew keeps their trucks clean and in top repair. Trucks and offices are all equipped with radios for communication among personnel. Tool boxes are well equipped for repairs.

Osborne also believes in company picnics and self-improvement programs. The company pays employees $100 to complete each series of the NAA’s Home Study Program.

“We also use our own operation for self improvement,” says Osborne. “Climbers become bucket operators. Crew workers transfer to our landscape division or clearing operation. Instead of moving to another company, an employee can try something else within our own company.”

Backgrounding the speeches is the difficulty the arborist industry has in attracting recruits and retaining those who have been trained.

A wage comparison from 1968 to 1978 shows that a groundman making $2.26 an hour was raised to $3.12 for a 38 percent increase in ten years; a climber making $2.82 was raised to $4.68 for a 66 percent increase; and a foreman making $3.28 was making $5.27 in 1978 for a 61 percent increase. Inflation figures show that today’s dollar is worth only half as much as 10 years ago and the industry is not keeping pace.

Wood makes alcohol; raw material for fuel

The use of wood to make alcohol for gasohol production could hike the nation’s transportation fuel supply by at least 10 percent before 1985, says a wood industry executive.

Norval Morey, president of Morbark Industries, Inc., Winn, Mich., says through existing technology and government incentives, wood alcohol (methanol) can be produced at 34 cents a gallon for making gasohol. This proven technology is the cheapest way to make gasohol, an alcohol-gasoline blend.

Morey says methanol is the most feasible energy source for making alcohol fuel because wood is the nation’s most abundant, renewable, alternate energy resource. He called "a tragic and monumental waste" the fact that vast quantities of wood now rot and die in the nation’s forests.

"There is enough wood going to waste on private and public lands in this country, that if we were to use only one-third of this wood, it could provide gasohol for all the automobiles in this country," he says.

In another development, a new project at Georgia Tech’s Engineering Experiment Station is teaching Georgia’s industry how to use wood waste for fuel.

Carol Aton of the EES says the Department of Energy has provided almost $1 million to push wood as an alternate energy source in Georgia.
"We are trying to stimulate the use of wood waste because of the current energy situation," says Aton. "Many forest-related industries are already using their wastes for fuel."

In this project EES engineers are looking at industries that have little or no experience with wood fuel. They have chosen the textile, food, carpet, and mineral-processing industries.

RECYCLING

Waste recovery creates huge service market

The recovery of municipal, industrial, and agricultural wastes for use as fuel and raw materials will give rise to a $13 billion equipment and engineering services market over the next two decades, according to market research specialists.

In a 252-page study, researchers Frost & Sullivan, Inc., in New York City, say recent restrictive legislation on landfills will greatly increase their costs and such sites will disappear in the United States.

Only a few of the many competing solid waste recovery technologies will survive the test of time, the study says. These include Refuse Derived Fuel (a high-bulk density fuel that is easily transported and stored) and pyrolysis (the conversion of refuse to gaseous and liquid fuels).

Energy, one of the most coveted resources to be recovered from solid wastes, would only account for 2 percent of the U.S. energy need. Nevertheless, the study says, increasing energy prices plus long-range mineral shortfalls will spur the use of resource recovery.

SOD

Reed canarygrass: best crop on effluent land

"Reed canarygrass stands alone among eight forages tested as the species best suited for removing nitrogen from sewage effluent and for producing the most protein per acre," says Gordon C. Marten, research agronomist with the U.S. Dept. of Agriculture.

The three years of trials compared two rates of effluent application, 4 inches per week and 2 inches per week on alfalfa (Agate), smooth bromegrass (Fox), orchardgrass (Nordbreak), Kentucky bluegrass (Park), tall fescue (Kentucky 31), timothy (Climax), reed canarygrass (Rise), and quackgrass.

Three harvesting patterns — two, three, and four cuttings per season — were evaluated. Marten, soil chemist Charles E. Clapp, and soil scientist William E. Larson checked the forages for persistence, yield, crude protein, and digestible dry matter.

Root rot problems limited alfalfa on the effluent treated plots, Marten said, and timothy and smooth bromegrass failed to persist very well.
USED EQUIPMENT

2 — 50’ AERIAL BASKETS, brush chipper, stump cutter, 2 sprayers, small crane.
Parkway Tree Service, 12026 West Cherry Park, stump cutter, 2 sprayers, small crane.

2 sprayers, bucket trucks, all condition. Let us know your needs. Essco, 5620 Old Sunrise Hwy., Massapequa, N.Y. 11756. 516 799-7619.

5620 Old Sunrise Hwy., Massapequa, N.Y. 11756. 516 799-7619.

1971 BEAN ROTOMIST BLOWER, MODEL 91. Skyworker. 42 ft. on 1954 Ford truck, model F 700. Call 413 229-8689 or write Bill Koneazny, RD1, Box 273, Canton, Conn. 06018.

FOR SALE 200 gallon Root-Lowell spray tank, 10 gallon per minute pump with R & L boom spray attachment, both $950.00. 312 799-3954.

NUNES SOD HARVESTER with pick-up head, completely gone over, excellent condition and Finneyrock pull type sod cutter, $11,500. 301 442-2220.

VERMEER MODEL 10 stump grinder, $4,000.00. Lupton Tree Service, 32 Martha, Tiffin, Ohio 44883. 419 447-3726.

FOR SALE 65’ Aerial bucket with four hydraulic outriggers and two-man basket. Excellent operating condition. No truck. $5800.00. Phone 201 922-9393.

FOR SALE — One trailer 3,000 lbs. Trailertek. By Magline. Hydraulic elevating used less than 100 miles, save $500.00. Picture can be furnished. Wells Lawn and Tree Service, 271 4th St. N.E., Wells, Mn. Call 507 553-9332.

FOR SALE 200 gallon Tuflex spray tank with dual jet agitation and Hypro roller pump. $650.00. 312 799-3954.

FOR SALE: All Toro equipment — used, 2 years old. 69 controllers or clocks retails for $575 each. 105-No.634 Toro heads retails at $72.00 each. 590-No.658 Toro heads retails at $100.00 each. Make offer. Call Ken Horton, Nu-West Colorado, Inc., 303 794-7093.

MODEL 630 Vermeer stump-cutter like new. $3,000.00. 4 cyl. 12’ fully reconditioned. $3,500.00. 16” Asplundh chipper, needs a motor, $1,700.00. 12” Asplundh chipper, needs a power unit, $1,450.00. Edwards Tree Service, 49006 Cooper Foster Park, Amherst, Ohio 44011. 216 988-4477.

LANDSCAPE COMPANY — Established 1974; includes excellent reputation, tools, trucks, equipment, yard with ideal location. Average gross $145,000/year. Mail inquiries to Box 2188, Santa Barbara 93120.

LANDSCAPE DESIGN KIT. 37 rubber symbol stamps and ink pad. Postpaid $30.00; COD $32.00 plus postage. Order direct or request brochure. California add sales tax. T-Gordon’s, Box 7417, Reseda, California 91335. 213 881-2808.

LANDSCAPING BUSINESS for sale, including contracts, equipment and trained employees. $10,000. Ben Bolliger, Tremont, IL 62970.

FOR SALE 52’ Hi-Ranger bucket truck mounted on 1965 Ford F600. Good condition. $10,000. Ben Bolliger, Tremont, Ill. 61568. Phone 309 925-5132 or 925-3644.

FOR SALE Finn straw mulcher, 1970 model MSD 20, diesel engine and Finn asphalt tank, 1970. model RAT, $7,000.00. 1960 Homemade straw mulcher, $1,500.00. 1974 Homemade tar tank, $1,000.00. 7,000 gallon lowboy water trailer with pump, engine, and valves, $8,000.00. Washington Tree Service, Inc., 20057 Ballinger Road, N.E., Seattle, Washington 98155.

FOR SALE Used equipment. 1973 Ford F600 lawn spraying truck, 1200 gallon, excellent condition, $11,000. 312 599-8338.

HELP WANTED

GOLF COURSE TURF PROFESSIONALS: An opportunity to sell ProTurf products. ProTurf Division of O.M. Scott & Sons, the nation’s leading manufacturer and marketer of professional turf products, has openings for Technical Representatives in several territories. The Tech Reps selected will call on golf course superintendents, requiring a knowledge of turf management and an understanding of these professionals’ needs. Applicant should have a BS degree or equivalent in one of the agronomic sciences. Excellent starting salary plus bonus, automobile, and a comprehensive benefits program at no cost to employees go along with these positions. Send resume in confidence to Dick Stahl, Director of ProTurf, O.M. Scott & Sons, Marysville, Ohio 43040. An equal opportunity employer.

HELP WANTED — Assistant manager — applicator position open at new branch in Pittsburgh, Pennsylvania of established chemical lawn care. Super opportunity with yearly bonus, good salary and benefits. Send complete resume, including experience and salary history and requirements to: Green Lawn (home office) 2605 Alma Avenue, Ft. Wayne, Indiana 46809.

LANDSCAPE MAINTENANCE MANAGER position involves managing 5 or more crews, including customer relations. Applicant should have degree in ornamental horticulture, turf or related field with three or more years in supervisory capacity. Opportunity for advancement with one of the largest growth companies in the industry. Positions available in suburban Chicago and Philadelphia. Send resume with salary history and recent photo to Theodore Brickman Co., Long Grove Road, Long Grove, Illinois 60047. “An Equal Opportunity Employer.”

DELIGHTFUL SARASOTA FLORIDA: Three opportunities open. Arborist, horticulturist, certified pest control operator. The right person can have management position. Sound experience absolutely required. Unusually rewarding financially. State complete background and future dreams. Horticultural Service Center, 6609 Peacock Road, Sarasota, Florida 33581.

GOLF COURSE SUPERINTENDENT — Position in 18 hole municipal course, Northeastern Illinois, 5 year minimum experience required. Salary range open. Forward resume in confidence to: Search Committee, P.O. Box 25, Burlington, Wisconsin 53105.

EXPERIENCED LAWN MAINTENANCE SUPERINTENDENT. Looking for enthusiastic, experienced person to fill responsible position in growing firm. Responsibilities include daily organization and supervision of lawn maintenance crews, acquisition of new accounts, and financial planning for new and existing jobs. Should have experience involving tree, turf, and shrubbery maintenance. A must-experience in dealing with customers and employees, excellent sales ability and above average knowledge of turf. Well paid. Immediate openings. Call for this year round position. 312 634-8300. Bob’s Green Thumb Landscaping, Route 1, Box 131, Mundelein, IL 60060.

CENTRAL PENNSYLVANIA landscaping and tree care firm is looking to fill 2 positions. (1) Tree climbers with at least 2 years experience. Applicants should be knowledgeable in all phases of tree care including pruning, removals, bracing and cabling. (2) A top climbing foreman with at least 5 years experience in the industry and 2 years in a supervisory capacity. Company offers complete medical benefits, good wages and year-round work. Send resume to: Alwine Landscaping and Tree Service, P.O. Box 249, Annville, Pa. 17003 or phone 717 867-4487.

ASSISTANT SOD FARM MANAGER for medium size Northeast sod farm has opening for person experienced in all phases of sod production and harvesting. Background in horticulture or agronomy required. Excellent compensation and benefits for qualified person. Please send complete resume to Box 227, Weeds, Trees and Turf, Box 6951, Cleveland, Ohio 44101.

SOD HARVESTING AND SOD PRODUCTION foreman needed for Northeast sod farm. Must have farm experience and mechanical ability. Background in horticulture or agronomy desired but not essential. Excellent compensation and benefits. Please send complete resume to Box 229, Weeds, Trees and Turf, Box 6951, Cleveland, Ohio 44101.

WORKING LANDSCAPE CONSTRUCTION FOREMAN for growing company. Excellent living and pay plus job from plan. Knowledge of plant material, seeding, grading, and equipment required. Degree in landscape design/horticulture helpful. Excellent opportunity to move up into management and/or design/sales. Salary commensurate with ability and background. Ivy Wall Nursery, Inc., Rt. 5, Box 69A, Lee's Summit, MO. 64063. 816 524-7267 after 7:00 p.m.

SEEDS

BUSINESS OPPORTUNITIES

VAIL, COLORADO. Nursery and landscape contracting company for sale. Year round business with snow plowing in winter. Inventory includes 7 trucks and 2 loaders. 303 476-3047.

SALE OR MERGER NORTHERN OHIO FIRM. Landscape construction, maintenance, interiorscaping, lawn application service. 20 plus years of continued success. Outstanding growth last five years. Over 1 million $ annual sales. Impressive profits. 3 year old (10,000 sq. ft.) operations and office center on 3 acres adjoining major interstate highway. Also available 9 acres land, 1 acre greenhouse production, 20,000 sq. ft. warehouse, 3 homes and foliage transportation from west coast and Florida. Present management will remain. Box 229, Weeds, Trees & Turf, Box 6951, Cleveland, Ohio 44101.

MISCELLANEOUS

KELWAY SOIL pH TESTER, used by professionals everywhere. Direct reading, longlasting, portable, lightweight, no power source. Model HD-2 reads moisture too. Sold, guaranteed and serviced by Kel Instruments Co., Inc., P.O. Box 1869, Clifton, N.J. 07015. 201 471-3954.

NEW — THE WICK-IT WEEDKILLER. Lightweight hand-held wick applicator. No spray, no drift, no herbicide usage. Johnson grass and other weeds growing among desirable plants. Perfect for grounds. $29.95 plus $2.00 for handling. Send for brochure. Plant Production, Rt. 7, Box 441E, Fort Worth, TX 76119.
Scenic Kentucky Bluegrass was selected from a well-established production field of Merion Kentucky Bluegrass in 1966 by Otto Bohnert, a prominent Oregon grower of both Penncross Creeping Bentgrass and Merion Bluegrass.

Thoroughly tested as well as proven in actual use, Scenic Kentucky Bluegrass is now produced in marketable quantities. It's an excellent choice for blending with other bluegrasses as well as the fine fescues and turf-type perennial ryegrasses.

You'll also be interested to know that Scenic is considered the equal of Merion in shade tolerance and turf density, more resistant to Fusarium roseum and leaf, stem and stripe rust, but in some cases appears to be slightly more susceptible to leaf spot.

Scenic— the proven Kentucky Bluegrass you should take a look at.
The current issue of YESDS TREES & TURF carries meeting dates beginning with the following month. To ensure that your event is included, please forward it, 90 days in advance, to: YESDS TREES & TURF EVENTS, 9800 Detroit Ave., Cleveland, OH 44102.

The elite bluegrass growing in the sun is Glade. The elite bluegrass growing in the shade is Glade. That makes it the natural choice for all lawns. It performs well in up to 60% shade with a higher resistance to powdery mildew. Additionally, Glade has better-than-average resistance to Fusarium blight. It's now used as a prime ingredient for fortification in many professional turf grass mixes. A Rutgers selection, Glade has outstanding medium to deep green color. Low-growing Glade germinates and establishes fast, developing a thick rhizome and root system for close-knit sod.

Most lawn areas have both sun and shade naturally. That's why Glade Kentucky bluegrass is the natural choice. Specify Glade for your next turf grass mix. It's available at your local wholesale seed distributor.
