# We put a lot into our Turf-Truckster.

One of the most dependable vehicles for moving your crew around is the 3- or 4-wheel Cushman® Turf-Truckster. But it was also designed for more than just transportation.

Equipped with an optional PTO and hydraulic system, both models accept a wide range of special, add-on turf maintenance equipment. So with just one Turf-Truckster you can haul, dump, grade, seed, spray, spread, top dress, aerate and more.

But there's more to a Turf-Truckster than versatility. There's a rugged 18-hp engine that's built to take on your turf. It comes with a standard 2 to 1 auxiliary transmission. A transmission built to allow a gear driven PTO to be attached directly to it. And common sense engineering makes the Turf-Truckster steer clear of the repair shop, too.

The 3-wheel model gives you the maneuverability of a tight 17' turning circle, while the 4-wheeler has seating room for two. And it just takes minutes to

add any of the Turf-Truckster's accessory pieces, thanks to Cushman's pin-disconnect system. No bolting, no hitching. Just snap two or three pull pins in place and you're ready to hit the turf.

If a good transportation/hauling vehicle is all you need, though, look at the Cushman Runabouts. There's an 18-hp two-seater, and a fuel-stingy 12-hp one-seater model. Both Runabouts are economical to own. And like any Cushman vehicle, they're built tough.

There's nothing like a Turf-Truckster or Runabout to get more work done, in less time and with less manpower. For a closer look at what goes into, or behind, a Cushman vehicle, return this coupon today.

**Boots Hercules Agrochemicals Co.** is marketing Nitroform, a high-analysis, organic, ureaform nitrogen (38-0-0) that soil microorganisms utilize. Field tests have shown that

when Nitroform is used as the source of nitrogen in a seed bed or fertilization program, a residual is established in the soil for sustained nourishment.

 and indoor plant lovers...*

**WILT-PRUF I**

...for Christmas trees, wreaths and greens, to retard needle drop and reduce fire hazard; keeps them fresh for the entire holiday season! WILT-PRUF I produces a thin, transparent film substantially reducing excessive evaporation when evergreens are brought indoors. Comes in 10 oz. Redi-Spray.

**WILT-PRUF II**

...for indoor plant protection, helps plants from drying out and wilting. When sprayed on plant foliage, WILT-PRUF II provides a thin, transparent film which acts as a protective coating substantially reducing water loss during periods when excessive evaporation occurs. WILT-PRUF II helps the appearance of foliage by providing a slight gloss to the surface of the leaves. (Avoid using on plants with hairy leaves such as African Violets.) Comes in 10 oz. Redi-Spray.

# *Why this magazine and more than 750 others let us go over their books once a year.*

Some magazines, we're sorry to say, keep their readers undercover. They steadfastly refuse to let BPA (Business Publications Audit of Circulation, Inc.) or any other independent, not-for-profit organization audit their circulation records.

We think the reason is obvious: These magazines are less than proud of the quantity and quality of their readers.

On the other hand, over 750 publications (like this one) belong to BPA. Once a year, BPA auditors examine and verify the accuracy of our circulation records.

This audit provides the name, company, industry and job title of every reader each publication reaches. The information helps advertisers to determine if they are saying the right thing to the right people in the right place.

It also helps somebody else important: you. Because the more a publication and its advertisers know about you, the better they can provide you with articles and advertisements that meet your informational needs.

BPA. For readers it stands for meaningful information. For advertisers it stands for meaningful readers. Business Publications Audit of Circulation, Inc.

## Lawn Smooth, Rock Tough VEMCO Flail Mowers

Talk about versatile! The Vemco Flail Mower keeps parks, and other large lawn areas smooth and streak-free. It also cuts rocky, trashy areas where ordinary mowers cannot go.

Standard Series mowers, with 42", 48" and 60" widths, have many construction features usually found only on heavy-duty models. Heavy Duty Series, with 60", 72" and 84" widths are tougher yet. Rock Dodger blades swing free in all directions, are practically immune to breakage.

We urge you to compare a VEMCO with any other mower in its class. You'll see the difference and like it.

SEPTEMBER 1980/WEEDS TREES & TURF

## Chemicals

**Estech General Chemicals Corp.** has developed a new concept in slow-released turf fertilizers called IB-DU/SCU. The mix blends a three

nitrogen formula with sulfur-coated urea and water soluble urea to provide a three-stage release that lasts up to 90 days.

**Creative Sales, Inc.** has produced an in-store display that tells the story of the MEDICAP systemic implant. The

display contains the convenient "Ten-Paks" that are adequate to treat an average tree, plus ACECAP, a systemic insecticide implant.

**Monsanto Agricultural Products Co.** has developed Roundup, an herbicide for controlling a wide range of perennial and annual weeds and

grasses in one application. It can be mixed with water and applied with boom equipment, hand-held and high volume equipment (including knapsack sprayers), and shielded sprayers.
