

# IT'S OFFICIAL... IT TAKES LESS KOBAN® 30 FUNGICIDE TO PREVENT PYTHIUM.

There's a new, approved label rate for Mallinckrodt's KOBAN 30 fungicide. On the basis of Mallinckrodt field research and the working practices of many golf course superintendents, the minimum label recommendation has been lowered to two ounces of KOBAN 30 to five gallons of water per 1000 sq. ft. for preventive treatment of Pythium. Now when you compare brands and prices—compare coverage. KOBAN is

effective and economical for use on fairways as well as greens and, used with the recommended amount of water, control will be improved and tip burn all but eliminated.

By every measure  
 this is the one  
 world class  
 Kentucky Bluegrass.

# ENMUNDI

Here is a low maintenance grass that offers multiple benefits to the sod grower. Fine textured, dark green and extremely uniform, Enmundi has better overall disease resistance than any other variety of Kentucky Bluegrass available in commercial channels today.

Enmundi can be counted on to develop an abundant, tenacious root system, have "excellent" resistance to leaf spot, brown patch and rust and "very good" resistance to *fusarium* and "good" resistance to stripe smut.

To top it off, Enmundi has excellent heat, cold and drought tolerance.

Well adapted to the northern half of the U.S. and well into Canada, it is also at home southward through the transition zone.

**Enmundi – it's *the one* world class Kentucky Bluegrass.**

# You'll profit more... on our side of the fence.

You'll profit more because Safe-T-Lawn offers you more. Quality, safety, variety and availability are some of the extras designed to move our irrigation products out of your store.

Safe-T-Lawn's superior quality control maximizes the performance of our heads and enables us to back our products with an extended warranty that no other company in the lawn irrigation industry can match.

With pop-up heads that hide from detection when not in use, Safe-T-Lawn

products prevent tripping accidents and mower damage. That means more satisfied customers for you.

And, when it comes to variety, Safe-T-Lawn offers both brass and plastic irrigation products—a new series in each material—and a product line large enough to meet any application. Plus, we keep a complete inventory of products constantly available to you through strategic warehousing and a complete distributor network.

At Safe-T-Lawn, we do it all so you'll profit more.

On our side of the fence...we're on your side.

# Now, the Cushman Front Line offers a choice of decks. And a diesel.

We've taken a proven performer and made it work even harder. You already know the Front Line™ as an exceptional rotary turf mower. With the kind of common-sense engineering and durability you expect from Cushman.

Durability that comes from features like an 18 hp, air-cooled OMC gasoline engine. Single, rear-wheel steering and split, front-wheel traction assist pedals. Variable cutting heights. Hydraulic deck lift. Foot and parking brakes. Large-capacity fuel tank. Wheel-type steering, and more.

And now, optional decks, diesel power and specialized accessories make it even more productive.

In addition to the 72" mower deck, we now offer a 60" deck for smaller jobs. Both feature 12-gauge carbon steel construction, and are offset for close-up trimming.

For even greater economy and durability, the Front Line is now available with an optional water-cooled 4-cycle, 2-cylinder diesel engine.

And for year-round versatility, we've added hard-working optional accessories for the gas tractor. Like the new 60" chain-driven rotary broom. The roll-over protection structure and weatherproof cab set (also available for diesel). And the

new 48" snow thrower that can move up to 5,000 lbs. of snow per minute.

The Front Line. Tough enough to be a Cushman. Now versatile enough to pay off full time.

Call your Cushman dealer now for a demonstration. 81-CUT-3R
