

for the sporting life

Milwaukee's County Stadium, Chicago's Cominsky Park and Baltimore's Memorial Stadium, as well as many college and university stadiums. So, whether the sport is football, baseball, or soccer, A-34 BenSun® is the Kentucky Bluegrass of the pros.

Horse Racing ... Can anything be as punishing to turf grass? Imagine the slashing and tearing of thundering hoofs as they run for the wire. A-34 BenSun® is rugged enough to withstand this kind of beating and still recover quickly. That's why many race tracks across the country specify A-34 BenSun® Kentucky Bluegrass.

Divots, spikes, electric carts, hot sun and short mowings. All of these are par for most courses.

That's why you need the one Kentucky Bluegrass that will go the distance on your tees and fairways ... A-34 BenSun®. A-34 offers excellent wear tolerance that will take short mowing down to 1/2 inch, so the ball rolls fast and lies well. So, don't leave your choice of Kentucky Bluegrass up to the toss ... When it comes to a tough bluegrass, one that can really take it ... score with A-34 BenSun® from Warren's ... the winningest bluegrass today.

There was a time when the two most important things on a coach's mind, before the big game, were the condition of his players and the strategy behind his game plan. Today, however, most coaches have an additional consideration ... the playing field. Is the turf well-rooted? Firm? Safe? He demands a field that's in top condition — a field that won't interfere with his players' results or jeopardize his game plan's success.

Because your success is based on results, consider A-34 BenSun® when buying, selecting, or specifying a Kentucky Bluegrass. A-34 BenSun® is the hardy bluegrass that is providing better, safer playing fields, coast to coast, for some of the nation's leading stadiums, such as, San Francisco's Candlestick Park, Denver's Mile High Stadium,

Prelude

turf-type perennial ryegrass

**“Every ‘new generation’
brings with it
something special.
So it is with this
new ryegrass . . .”**

Rich Hurley

It's here. PRELUDE, a “new generation” ryegrass that sets new standards in all 'round performance. The ryegrass that far surpasses those most popular varieties of just a few years ago.

Through Lofts research program, breeding material was obtained from the New Jersey Agricultural Experiment Station, under the direction of Dr. C.R. Funk of Rutgers University. The results? Prelude, the turf-type perennial ryegrass that answers the professional's needs.

- Improved mowability
- Excellent heat and drought tolerance
- Good winter hardiness
- Good resistance to crown rust and brown patch
- Attractive dark green color
- Quick germination
- Fine-leaved, dense growth

This is the ryegrass the golf course superintendents and grounds care people have been waiting for. And it shows exceptional performance in Southern overseeding programs.

Try the “new generation” ryegrass . . .
PRELUDE.
