102 WEEDS TREES & TURF/SEPTEMBER 1984
Scotts® has developed a flowable fungicide that produces results equal to those from a complex program of six leading fungicides. The unique combination of active ingredients in Fluid Fungicide controls and prevents red leaf spot, dollar spot (including benzimidazole tolerant strains), brown patch and pink snow mold.

Developed for use on the most popular turfgrasses, Fluid Fungicide adds a new dimension to Scotts traditional dry, granular approach to turf maintenance. To find out about all its advantages, call your local ProTurf® Tech Rep.
With the Lancer 350,
2 men can cover a lot of ground.

The only thing small about the Lancer 350 Hydr-O-Mulcher is its size. On the job, this 350-gallon unit is a giant.

In a normal work day, a two-man crew can cover:
- 4 home lawns (21,000 sq. ft.) on 6 tankloads, or
- 1 apartment or condo lawn (42,000 sq. ft.) on 12 tankloads, or
- 1 athletic field (63,000 sq. ft.) on 18 tankloads.

The Lancer 350, mounted on a single-axle trailer, handles seed, sprig, fertilizer and/or mulch operations. It comes with four nozzles and a 50’ extension hose. Optional is a high-pressure pump for herbicide and fungicide application.

For more information, including a free catalog, write or call today.

HOW TO SELL LAWN DISEASE CONTROL, AND DELIVER IT.

Turn disease problems into profits with CHIPCO* 26019 fungicide.

Selling disease control is a great way to boost profits and attract new customers. And CHIPCO® 26019 is the ideal product to help you do both.

The selling proposition: a beautiful, disease-free lawn.

Everything you do for a customer is designed to create a beautiful lawn. Turf diseases look bad...and that can make you look bad. A programmed approach includes an effective, long-lasting fungicide like CHIPCO 26019 keeps your customers satisfied.

CHIPCO 26019 is the only fungicide you need.

It can be used safely on all lawn grasses nationwide to control the major turf diseases like leaf spot, dollar spot, fusarium and brown patch. Highly effective and long-lasting, CHIPCO 26019 fungicide fits into your treatment schedule and reduces callbacks.

In short, when you’ve got CHIPCO 26019 on the shelf, you’re ready for business.

Send for FREE booklet on how to sell disease control.

We’ve put together a booklet that details lots of effective techniques and tools for selling disease control to your customers...and delivering it with effective, long-lasting CHIPCO 26019 fungicide.

SEPTEMBER 1984/WEEDS TREES & TURF 105
The Learning Season

by Ron Hall, assistant editor

By the time most people get around to making their annual resolutions, the successful nurseryman or turf manager is already hip-boot deep in planning and buying for the coming year.

The Green Industry isn't so much tied to the calendar as it is to the seasons. That's why each autumn large numbers of the Green Industry get together in conferences and trade shows.

New research, new ideas, new products, new acquaintances—looking for new ways of getting the job done and getting it done more efficiently, economically, and safely. The autumn, with the experiences and the ideas that worked and those that didn't, the satisfactions and frustrations of the busy summer still fresh in our memories, has naturally grown into the start of the new season. It's a good time to share what we've learned.

The following is a summary of some of the major events coming in the Green Industry:

NATIONAL
American Society of Landscape Architects (ASLA) 84th Annual Meeting, Nov. 17-20, Civic Plaza, Phoenix, AZ. Contact Gail Reuter, 1733 Conneticut Ave. N.W., Washington D.C. 20009, (202) 466-7730.
National Institute on Park and Grounds Management Conference, Oct. 29-Nov. 1, Regency Inn, Denver. Contact Tom Luba, Box 1936, Appleton, WI 54913, (414) 733-2301. The Sports Turf Managers Association (STMA) will be convening with the National Institute Conference. STMA Program Chairman Mike Schiller plans to have pro-sports stadium grounds managers discuss their techniques.

REGIONAL
North Central Turfgrass Exposition, Dec. 11-13, O'Hara

RAYCO STUMP CUTTERS

are for those who demand maximum field performance for their money.

(216) 264-8699
Remember the name because you're going to hear a lot about it. Fylking Kentucky bluegrass lawn is something special. It forms a dense, thick turf, more disease and drought resistant. Greens up earlier, stays greener longer. Fylking can be cut as low as ¼ inch, even ⅛ inch for home putting greens. Proven over many years of international certified testing. Ask your seed distributor for Fylking.

Fylking — the World's Fair grass.

Supplies are excellent. The price is right. Order Fylking now!

Another fine, quality-controlled product of Jacklin Seed Company.
Exposition Center, Rosemont, IL. Contact Office of Continuing Education and Public Service, University of Illinois, 725 S. Wright St., Champaign, IL 61820, (217) 333-2883.

Pacific Horticultural Trade Show, Sept. 6-8, Los Angeles Convention Center, Los Angeles. Contact Elaine Thompson, California Association of Nurserymen, 1419-21st St., Sacramento, CA 95814, (916) 448-2881.

Southern Turfgrass Association Conference, Nov. 4-6, meeting at Hyatt-Regency, convention at Convention Center, Birmingham, AL. Contact Dr. Richard Duble, 3606 Meadow Oaks, Bryan, TX 77802, (409) 845-3211.

Southwest Turfgrass Association Conference, Oct. 18-19, Holy Cross Retreat, Las Cruces, NM. Contact Dr. Charles Glover, Box 3Q, Crop and Soil Science Dept., New Mexico State University, Las Cruces, NM 88003, (505) 646-3138.

STATE

California Turfgrass/Landscape Educational Exposition, Oct. 3-4, Orange County Fairgrounds, Costa Mesa, CA. Contact Ed McNeill, SCTC 1000 Concha St., Altadena, CA 91001, (818) 798-1715.

California Landscape Contractors Association (CLCA) Convention, Nov. 8-11, Ixtapa, Mexico. Contact Bob A. Gouley, 2226 K Street, Sacramento, CA 95816, (916) 448-2522.

Kentucky Turfgrass Council Conference, Oct. 9-11, Executive Inn, Owensboro, KY. Contact The Kentucky Turfgrass Council, Carter Building, Eastern Kentucky University, Richmond, KY 40475.

Missouri Valley Turfgrass Conference, Nov. 5-7, Marriott’s Pavilion Hotel, St. Louis, MO. Contact Dennis Barron, president of the MVTA, Cherry Hills Country Club, 16700 Manchester Road, Glencoe, MO 63038, (314) 458-2343.

New Jersey Turfgrass Expo, Dec. 3-6, Resorts International Hotel, Atlantic City. Contact Dr. Harry W. Indyk, Soils and Crops Dept., Cook College, P.O. Box 231, New Brunswick, NJ 08903, (201) 932-9453.

New York State Turfgrass Conference, Nov. 7-9, War Memorial, Syracuse, NY. Contact Anne Reilly, 210 Cartwright Blvd., Massapequa, NY 11762, (516) 541-6902.

Ohio Turfgrass Conference, Dec. 3-6, Ohio Center, Hyatt-Regency, Columbus, OH. Contact Dr. John Street, Kottman Hall, Ohio State University, 2021 Coffey Road, Columbus, OH 43210, (614) 422-2601.

Oklahoma Turfgrass Conference, Nov. 7-9, Lincoln Plaza Inn and Convention Center, Oklahoma City. Contact Gary Hallett, Page Belcher Golf Course, 6666 S. Union, Tulsa, OK 74123, (918) 445-1283 or Dr. Robert L. Green, Oklahoma State University, 360 Agricultural Hall, Stillwater, OK 74078, (405) 624-5419.
Vermeer unveils mobile tree-moving machine

A compact, highly mobile tree-moving machine, designed to transplant 5-inch diameter trees is being introduced by Vermeer Manufacturing Co. The TS-50S Tree Spade, a truck-mounted unit, features four hydraulically powered curved steel spades with a digging capacity of 50 inches in diameter down to 40 inches deep.

Four Char-Lynn hydraulic motors, plus a three-stage chain reduction drive assembly, deliver power to the spades. With the framework and spade towers on the outside, the Vermeer tree spade can be operated close to other trees or nearby obstacles. It has a maximum height of just 72 inches.

The unit features positive, hydraulic lock/unlock creating a solid digging frame; pump feed water tanks to lubricate spades during the digging operation; double-gate pivoting for longer life; high clearance outriggers for greater stability; and hydraulically-activated, hold-down pressure plates to maintain a firm tree ball during transport.

The TS-50S is capable of being mounted on a 25,000-lb GVW-rated truck with a minimum cab-to-axle of just 84 inches.

Brouwer Triplex mower has free-floating units

The Brouwer Triplex 376 mower is loaded with features including free-floating cutting units, anti-scalp front rollers, a differential lock, and a choice of five or seven-bladed reels. Powered by a 8 1/2 hp Wisconsin Robin engine, the Triplex has a 76-in.

Change spray tips clean strainers in seconds... without tools!

New QuickJet system

Model QJ-10 Series For Dry Booms
QJ100 Series For Dry Booms
QJ200 Series For Dry Booms

New QuickJet System minimizes your service time and helps assure accurate delivery. The self-aligning quick "on/off" cap can be used with all interchangeable spray tips. The caps are available in 8 colors for color-coding different tip sizes.

QUICKJETS SAVE TIME AND MONEY.

Send for QuickJet bulletin and data sheets.

Atrinal can also be used for nursery and greenhouse crops.
Slash labor costs with the Duckbill® Tree Anchoring System

One man can anchor a tree with 3 Duckbills in minutes

Robert L. Swain, vice president of the Dawson Corporation, landscape contractors in Windsor, New Jersey, said, "We used your Duckbill Earth Anchors to replace the deadman detail specified by the landscape architect to hold a large number of trees in place after planting. Installing the Duckbills cut the labor time by such a drastic margin that we saved a week's time with a four man crew!"

Duckbills are safer than most anchors because there are no rigid rods or hard steel loops left above ground to injure people or pets or damage mobile equipment. Only a small pliable cable loop remains above ground with Duckbills.

Duckbill is driven into the ground using a drive rod and heavy hammer till only the top half of the cable loop remains above ground. An upward pull on the cable rotates the Duckbill into a load lock position like a toggle bolt in undisturbed earth. When anchoring is no longer needed, simply cut cables at ground level, leaving no sign anchors were used.

For complete details call or write today. Foresight Industries Inc., P.O. Box 4067, 2114 Pioneer Avenue, Cheyenne, Wyoming 82003. Phone (307) 635-4163.

Cutting width, and the height of the cut can be adjusted from 1/2 to three inches. The cutting units can be raised or lowered from the tractor seat.

The Triplex is designed for the professional user, its manufacturer says, and it is ideal for parks, schools, golf courses, landscape maintenance, estates, and wherever grass requires routine attention.

Circle No. 191 on Reader Inquiry Card

Stauffer's Imidan 1E aimed at insect problems

Imidan 1E is being introduced by the Stauffer Chemical Co. for controlling major insect problems in shade trees, flowering trees, shrubs, and evergreens.

Imidan 1E has a quick knockdown and good residual activity, is biodegradable, and disappears from foliage after its work is done, its manufacturer says.

This product was developed after several years of tests with the assistance of a number of arborists in the Northeast.

Circle No. 192 on Reader Inquiry Card

New Cushman sprayer covers lots of ground

Cushman introduces a 150-gallon sprayer with a 21-foot rear sprayer boom that enables the operator to cover up to 10 acres at a speed of 4 mph.

The breakaway sprayer boom includes a 5-foot center section and two 8-foot extensions that fold up for transport. The dripless spray nozzles can be adjusted for 10-inch, 15-inch, or...
