## Ford ready with new commercial mower line

Ford is aiming its new line of commercial mowers at lawn service companies, country clubs, golf courses, and other places with big mowing jobs.

Pictured is the C-48 intermediate commercial self-propelled model. Other new offerings include the C-21SP self-propelled and the

C-21 push mower.

## Eaton netting handy for home and garden

Eaton introduces a tough, black polypropylene material, the Home and Garden Netting, designed for a variety of outdoor uses. It can provide protection from birds and animals for fruit trees or as a cover for vegetable and flower gardens. Other suggested uses include composting, erosion control, and winter protection.

The mesh material is U.V. stabilized to prevent sun deterioration and is rot-proof, non-flammable, and

unaffected by chemical sprays, its manufacturer says. The netting is packaged in four lengths: 12 ft., 50 ft., 75 ft., or 100 ft, all being 14 ft. wide.

## American Trencher shows new PTO-driven model

The new 3-point-hitch, PTO-driven trencher from American Trencher/Bradco fits many models of small tractors equipped with hydrostatic transmissions or creeper gears.

The trencher features trenching widths from four to 12 inches, and

depths from 2.5 to six feet with dual pivot action. Spoil is handled by the low-horsepower-demand paddle auger or the ribbon, screw type. The drive line is protected by slip clutch while a cat Duocone seal protects the bearings. A one year limited warranty covers the drive line, the manufacturer reports.

## CAYMAN from page 37

these 125 yard "pumpkin balls."

It is the far-flying characteristic of the well struck golf ball that is the lure to golfers. Equipment manufacturers invest millions trying to satisfy this need, and every revolution in golf has centered around making the ball fly further, going from the feathery to the gutta percha ball, from the gutta percha to the wound ball, from hickory to steel-shafted clubs and now it is to space age materials and computer designs.

**There is a certain lure to try the short ball alternative to golf for no other reason than curiosity or to become the local resident expert.**

Short ball golf is a brilliant publicity ploy for the Grand Cayman Islands and the Britannia resort. Had this short ball thing not become so widely publicized, I don't think many people would travel to Grand (where?) to play some 9 hole golf course. The concept did what it was supposed to do—make the resort famous. How long this notoriety will last remains to be seen.

### Perspective

I hope if this discussion has done one thing it has put the short ball idea into proper perspective.

The whole issue reminds me of the children's story about the emperor's new clothes.

As I remember it, there was an emperor who commanded so much influence over his kingdom that when a slyster tailor made the king believe that instead of being nude he was simply wearing the lightest, most comfortable garments in the world, his subjects believed it, too. Then, one day, the emperor was parading in the street showing off his "new clothes," and a little innocent boy called out, "but mother, he doesn't have on any clothes at all."

Of course everyone admitted they couldn't see the clothes either and they all started to laugh at the foolish ruler.

The point is to not blindly believe the emperor, but to put the facts and situation into perspective and believe only what makes sense to you. **WT&T**

# Hannay Portable Hose and Cable Reels Go Where The Action Is

- Lightweight and durable
- Eliminates struggling with knotted, tangled hose or cable
- Saves labor costs
- Features direct crank rewind for fast, effortless pickup

Hannay Portable Reels make it easier than ever to use hose and cable in a variety of grounds maintenance jobs. Ideal for stadiums, parks and recreational areas, these dependable reels provide all the mobility you'll need to help you get the job done—wherever the job is. They're available in handy, easy-to-carry models or with sturdy, easy-rolling wheels.

**If you're not using Daconil 2787<sup>™</sup>  
on your golf course,  
you don't have many alternatives.**

Sure you've used other fungicides. Even tried one or two of the new systemics. But they didn't measure up to diseases like dollar spot and brown patch. Tees, greens and fairways had a lot of problems. And you had a lot of headaches.

Unreliable, inconsistent disease control is the biggest reason more and more superintendents are getting back to regularly scheduled applications of Daconil 2787 fungicide. Because Daconil 2787 is the most effective and reliable fungicide you can use on tees, greens and fairways.

Daconil 2787 has a proven record of performance when it comes to delivering superior control of ten major turf diseases including: dollar spot (and benomyl-resistant dollar spot), Helminthosporium (leafspot and melting-out) and large brown patch.

What's more, Daconil 2787 resists wash-off. So it's always out there working even during heavy rains or watering. There's no need to add a costly spreader/sticker for full and even plant coverage because it's already built in to the formulation.

And there's never been a documented case of resistance in over 15 years of use.

Plus you just can't beat Daconil 2787 for economy either. As we've been pointing out for the last two years, Daconil 2787 is the most cost-efficient fungicide you can use from tee to green.

So this season make your fungicide Daconil 2787. It's the one fungicide you can count on to save you from a lot of disease problems and a lot of headaches too.
